**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a Comcast customer because in my area I only have Comcast and AT&T. Both charge two times the amount as a local ISP, Sonic.com, and the customer service sucks. Tell me why my monthly bills have crept up almost 40% in the past 4 years, but performance hasn't increased.

The FCC is aiding and abetting in Socialism for large ISPs. The current administration has turned it into a hit squad to kill the competition required for healthy innovation and growth. Where have the subsidies we as taxpayers have given AT&T and Comcast since the 90s so that they build out cutting edge networks and functioning Customer Service. They have been pocketing it and passing the wealth onto stock holders and CEOs. Customers have been met with shitty customer service, lackluster performance, and billing scams that skim money from customers.

Stop the FCC assault until we can get an administration in the WH that will protect the freedom of anyone willing to compete in a market place rather than give advantages to large companies that fill the coffers of political parties that have been transformed into a criminal organization.
