STATEMENT OF CPNI PROCEDURES AND COMPLIANCE

Prepaid Wireless Retail, LLC

Prepaid Wireless Retail, LLC ("PWR" or "Company") provides the following as its Statement of CPNI Procedures and Compliance.

PWR does not use or disclose CPNI for any sales or marketing related purposes or activities and does not disclose CPNI to third parties.

The Company has adopted policies and procedures to safeguard its customers' CPNI from improper use or disclosure by employees; and to protect against attempts by third parties to gain unauthorized access to CPNI.

User account information can only be accessed by authorized representatives of the company. Such authorized representatives have access to the customer records management systems only via an established password protected account set-up in their name by a system administrator.

When the Company agent accesses customer information of any type, an audit log is created on the account that indicates the company agent that accessed the records. Call detail information is disclosed to customers in one of two ways: first it can be provided over the phone to customers. If a customer requests CPNI related information a customer service representative can provide the call detail only if the customer service representative calls the customer back at his or her telephone number of record. Second, a customer can access his or her call detail information on-line by going through an authentication process which includes providing a password.

The Company has not taken any actions against data brokers in the last year.

PWR has procedures in place to notify law enforcement (United States Secret Service (USSS) and FBI) of a breach of a customer's CPNI within seven (7) business days, and to notify customers of the breach. The company maintains a record of any breaches discovered and notifications made to the USSS and FBI. The customer's electronic record is updated with information regarding notifications of CPNI breaches.

The Company has not received any complaints about unauthorized release or disclosure of CPNI for the last calendar year and has had no reports of pretexters attempting to gain access to CPNI anytime during 2017.
