REDACTED – FOR PUBLIC INSPECTION

Re: Applications of T-Mobile US, Inc. and Sprint Corporation for Consent to Transfer Control of Licenses and Authorizations, WT Docket No. 18-197

Dear Ms. Dortch:

T-Mobile US, Inc. (“T-Mobile”) hereby submits additional material in connection with the Federal Communication Commission’s (“FCC’s”) Information Request of August 15, 2018.¹ The submission supplements the documentation provided previously concerning the network engineering model. It also provides additional technical details, including the operational site list for T-Mobile, SINR data files, shapefiles for network planning polygons, and a list of the sites that will provide broadband services on the New T-Mobile network in 2024. The filing also includes mapping data that breaks the shapefiles provided in response to Specification 30 into “east” and “west” files that are smaller than the FCC’s 2GB limit. The filing also provides a crosswalk between FCC production numbers and DOJ production numbers. Finally, the data provided includes a loadfile that will permit association of image files and other document production data for documents in TMUS-FCC-PROD001-005 that were, apparently, orphaned by a truncated load file. The DVD contains the load files and documents associated with the document requests in the Information Request, containing items tagged as “Highly Confidential,” “Confidential,” and “Public,” per the Protective Order.²

¹ Letter from Donald K. Stockdale, Jr., Chief, Wireless Telecommunications Bureau, to Kathleen O’Brien Ham, T-Mobile U.S., Inc., WT Docket No. 18-197 (Aug. 15, 2018) (“*Information Request*”).

² *In the Matter of Applications of T-Mobile US, Inc. and Sprint Corporation Consolidated Applications for Consent to Transfer Control of Licenses and Authorizations*, Protective Order, WT Docket No. 18-197, DA 18-624 (Jun. 15, 2018) (“*Protective Order*”). Pursuant to discussions with Staff, custodial documents and data and materials being provided with this response, unless specifically reviewed and downgraded, have been classified as “Highly Confidential.” Notwithstanding that default classification, Applicants are not asserting Highly Confidential status for any documents that have been publicly released (which would be Public) or for third party materials that are copyrighted (which would be considered Confidential).

Page Two

Pursuant to the procedures set forth in the Protective Order, a copy of the filing is being provided to the Secretary's Office, including the DVD. In addition, two copies of the Highly Confidential Filing are being delivered to Kathy Harris, Wireless Telecommunications Bureau, including the DVD. A copy of the supplemental load file is also being provided to the FCC's e-Discovery vendor. Finally, a copy of the Redacted Highly Confidential Filing is being filed electronically through the Commission's Electronic Comment Filing System.

Should any questions arise regarding this filing, please do not hesitate to contact the undersigned counsel for T-Mobile.

Respectfully submitted,

/s/ Nancy J. Victory
