

## Appendix B 2.5 GHz EBS Market Summary

### Top 5 Non-Operating EBS License and Lease Holders<sup>1</sup>:

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

Total License/Lease ID list can be found in attached **Table 1**.

### Top 5 License/Lease Holders Asset Summary:

- Held Licenses /Leases: [REDACTED]
- Estimated 2010 POPs Covered in Top 100 Markets: [REDACTED]
- Capacity per Market (in the 10 largest markets): [REDACTED]
- Estimated 2010 MHz POPs in Top 100 Markets: [REDACTED]
- Capacity in Top 30 BTAs<sup>4</sup> (coverage only in 24 BTAs, per Table 3): [REDACTED]

A summary of spectrum held per market is in **Table 2**. A summary of the Top 30 BTAs is in **Table 3**.

There are an additional estimated [REDACTED] MHz POPs held by other existing EBS license holders that are currently unleased or where the leases will terminate soon.

Sprint now holds an estimated 1,600 leases with EBS license holders – primarily Educational Non-Profits, Private & Public Universities/Colleges, local county school boards and private/parochial schools.

### Pending FCC NPRM EBS Spectrum Allocation:

- Will allocate anywhere from [REDACTED] of new EBS spectrum covering 39 million POPs across over [REDACTED] counties – estimated [REDACTED] MHz POPs in total
  - POPs to be allocated are roughly [REDACTED] rural, [REDACTED] urban
  - Counties to be allocated are approximately [REDACTED] Rural and [REDACTED] Urban
- If existing licenses expand to county borders, closing coverage gaps and increasing POPs covered – estimated [REDACTED] MHz POPs in total
  - Total MHz POPs expected to be allocated under NPRM – estimated [REDACTED] MHz POPs<sup>5</sup>

<sup>1</sup> These parties either hold spectrum licenses or are lessees but have not constructed and operated their own wireless networks. Capacity on most, but not all, of the EBS licenses has been leased to Sprint.

<sup>2</sup> Includes held [REDACTED] frequencies in [REDACTED].

<sup>3</sup> POPs Data provided by Universal Licensing Service – 2010 FCC Spectrum Dashboard POPs.

<sup>4</sup> Utilization of Basic Trading Area (BTA) market sizes in this case does not mean that 2.5 GHz EBS capacity/coverage is present or consistent across the entirety of the BTA market area(s).

<sup>5</sup> Earlier analysis by another party suggested upwards of 6 billion MHz POPs might be allocated in the NPRM.

**Table 1: Total License/Lease List of Top 5 EBS License Holders**
