Re: WT Docket No. 18-197, Confidentiality of NRUF / LNP Data

Dear Mr. Stockdale and Ms. Harris:

The Nevada Attorney General (“Attorney General”) is investigating the proposed acquisition of Sprint Corporation by T-Mobile US, Inc. to determine whether the acquisition would violate federal and/or Nevada state laws. For purposes of that investigation, and pursuant to the Attorney General’s authority under Nev. Rev. Stat. § 598A.100, the Attorney General seeks access to (i) relevant information contained in the Numbering Resource Utilization and Forecast (“NRUF”) reports filed by wireless telecommunications carriers, and (ii) disaggregated, carrier-specific local number portability (“LNP”) data related to wireless telecommunications carriers.

The Attorney General seeks all NRUF and LNP data, and any materials containing such data, only for legitimate law enforcement purposes, and the Attorney General will keep all NRUF and LNP data confidential to the full extent possible under all applicable laws, including Nev. Rev. Stat. § 598A.110. If a request is made under the Nevada Public Records Act for the disclosure of confidential information, the Attorney General will assert all available privileges, exemptions and other objections to disclosure that the Attorney General in good faith deems appropriate under applicable law.

Mr. Donald Stockdale
Ms. Kathy Harris
