BEAR 973979

It came to my attention that there was an FCC order issued on May 30, 2017. This order included BEAR 973979 for Andalusia School. The order directs USAC to process the requests for reimbursement within 90 days of the order. USAC failed to do so, and until now we did not get anything. I called USAC and created case #222526. They said that we did not fill on time, and have to request waiver from FCC. Attached is the communications with USAC via EPC.

We request a payment to be made immediately per the FCC order, and if USAC wants another submission, I request a waiver of their deadline, if any, since we were not contacted by USAC to resubmit.
