Narrative

This FRN was for existing WAN service for the district. Another FRN (1699046248) was also input for new WAN service to be constructed upon E-rate approval. The new FRN was ultimately cancelled due to the onerous and lengthy PIA process. This meant the current WAN service funded in FRN 1699046410 was delivered for all 12 months of the 2016 E-rate year.

During PIA, the auditor mandated that we indicate how long the current WAN would be in service and how long the new WAN would be in service. We were told that these timelines could be modified, if necessary, when the FCDL was issued.

With the cancellation of the new WAN FRN, we now need the "Months of Service" to be changed from 4 months to 12 months, since that is actually what was delivered.

We already submitted a form 500 to change the Contract Expiration Date to 6/30/17.
