**Re: Tri-County Electric Cooperative d/b/a HomeWorks Connect Certification of Wire Centers and census blocks for Universal Service Support, Pursuant to Section 214(e)(2) of the Federal Communications Act of 1996, Federal Communications Commission CC Docket No. 96-45, CC Docket No. 09-197, WC Docket No. 10-90**

Dear Ms. Dortch and Mr. Gaither:

DOCKET FILE COPY ORIGINAL

Pursuant to the requirements of 47 C.F.R. § 54.201, the Michigan Public Service Commission (MPSC) hereby certifies to the Federal Communications Commission (FCC) and the Universal Administrative Company (USAC) that Tri-County Electric Cooperative (HomeWorks Connect) has met the current standards for state Eligible Telecommunications Carrier (ETC) designation, for the purposes of receiving universal service fund support for both High-Cost and Lifeline in the areas listed in Exhibit 1 of their application.

Attached is the MPSC Order approving the application of HomeWorks Connect in case U-20334, as well as the service area page.

Sincerely,

Robin P. Ancona, Director  
Telecommunications Division

Case No. U-20334

At the February 21, 2019 meeting of the Michigan Public Service Commission in Lansing,  
Michigan.

PRESENT: Hon. Sally A. Talberg, Chairman  
Hon. Norman J. Saari, Commissioner

**ORDER**

On September 28, 2018, Tri-County Electric Cooperative, d/b/a HomeWorks Connect (HomeWorks) filed an application pursuant to Section 214(e)(2) of the federal Communications Act of 1934, 47 USC 214(e)(2), for designation as an eligible telecommunications carrier (ETC) for access to universal service fund (USF) support for the purpose of expanding and enhancing its rural broadband network and providing Lifeline service to low-income customers in Michigan. HomeWorks filed an amended application on February 6, 2019 (February 6 application). HomeWorks requests that the Commission enter an order designating it as a High-Cost and Lifeline ETC throughout all exchanges in its competitive local exchange carrier (CLEC) service area and the census blocks listed in Exhibit 1 of the February 6 application. These census blocks represent the areas for which HomeWorks was assigned the winning bid by the Rural Electric Cooperative Consortium in the Connect America Fund Phase II (CAF II) Auction.

On July 10, 2018, the Federal Communications Commission's (FCC) Wireline Competition Bureau released Public Notice DA 18-714,<sup>1</sup> in which it outlines various key service requirements of obtaining and maintaining an ETC designation, specifically for all CAF II Auction applicants. Among these requirements are: (1) ETCs must offer voice telephony as a stand-alone service; (2) ETCs must offer qualifying voice service using, at least in part, their own facilities; and (3) ETCs must satisfy the obligation to offer qualifying services by being legally responsible for dealing with customer problems, providing quality of service guarantees, and meeting USF-related requirements.

On August 28, 2018, the FCC announced the winning bidders of the CAF II Auction. HomeWorks was awarded several census blocks in the state of Michigan. The auction winners are required to use money awarded in the auction to expand broadband and meet various broadband goals throughout the census blocks; and the award is contingent upon HomeWorks' designation as an ETC in the census blocks it received, as well as meeting and adhering to all ETC requirements.<sup>2</sup>

HomeWorks states that it will be offering voice services on a stand-alone basis. HomeWorks has entered into a commercial wholesale agreement with Momentum Telecom, a Voice-over-Internet Protocol (VoIP) and broadband provider, to provide voice services to HomeWorks' subscribers. In the January 18, 2019 order in Case No. U-20323, HomeWorks was granted a permanent license to provide basic local exchange service throughout its service area in the state of Michigan. HomeWorks states that it is regulated as a common carrier and is subject to all applicable regulations.

---

<sup>1</sup> FCC Public Notice DA 18-714, <https://docs.fcc.gov/public/attachments/DA-18-714A1.pdf> (accessed February 11, 2019).

<sup>2</sup> *Id.*

HomeWorks states that it plans to offer facilities-based and resold local exchange services to residential and business customers. Facilities-based local exchange service will be provided using facilities owned by HomeWorks and via commercial wholesale agreements with incumbent local exchange carriers and fiber facilities built by HomeWorks, or a combination of both.

HomeWorks states that all applicable state and federal requirements related to consumer protection and service quality standards have been satisfied. HomeWorks states that it will be responsible, managerially and legally, for handling and responding to customer issues.

HomeWorks indicates that it has the ability to remain functional in emergency situations and states that all network assets have adequate backup power generation to provide functionality without an external power source. HomeWorks states that its network is engineered to provide maximum capacity to handle excess traffic resulting in spikes during emergency situations. HomeWorks indicates that it will comply with the obligations to provide service and have emergency backup power, pursuant to MCL 484.2305(c). Additionally, it will be providing quality of service guarantees for customers.

HomeWorks certifies that it will use any federal High-Cost support it receives only for the provision, construction, maintenance, and upgrading of facilities and provision of supported services in the service area and in the manner for which it was intended. HomeWorks states that it will offer residential data plans that start at 50 Megabits per second (Mbps) download and 50 Mbps upload speeds, that currently exceed the FCC's minimum broadband speed requirements. Additionally, HomeWorks certifies that it will provide all the services and functionalities required under federal law including providing voice grade access to the public switched telephone network and access to emergency services via 911 or E911.

The Commission notes that the FCC has held that an ETC may satisfy voice obligations through VoIP technology if it meets the functional requirements specified in the rules and the service is provided on a common carrier basis.<sup>3</sup> The FCC has stated that “We recognize that we have not generally classified VoIP as a telecommunications service or information service, but we nonetheless have recognized that providers might elect to offer interconnected VoIP as a telecommunications service.”<sup>4</sup> The FCC has also recognized that an interconnected VoIP provider can obtain access to the rights available to a telecommunications carrier if it “holds itself out as a telecommunications carrier and complies with appropriate federal and state requirements.”<sup>5</sup>

HomeWorks has historically been an energy utility, and it does not have the facilities or network infrastructure typical of most providers of basic local exchange service. Due to HomeWorks’ unique situation, the Commission’s Telecommunications Division Staff (Staff) found it necessary to submit questions to HomeWorks regarding details of the application, service, and facilities. These inquiries resulted in the filing of an amended application. The Staff also consulted with FCC staff regarding this type of ETC application. The FCC staff confirmed that a broadband provider may satisfy its voice obligation by offering voice service through an affiliate or by offering a managed voice solution (including VoIP) through a third-party vendor. The Staff recommends that the February 6 application be granted.

---

<sup>3</sup> *Connect America Fund et al.*, WC Docket No. 10-90 *et al.*, Report and Order and Further Notice of Proposed Rulemaking, Order No. FCC 11-161, ¶¶ 62-71, *rel’d* November 18, 2011 (*USF/ICC Transformation Order*).

<sup>4</sup> *Lifeline & Link Up Reform & Modernization et al.*, WC Docket No. 11-42 *et al.*, Third Report and Order, Order No. FCC 16-38, note 709, *rel’d* April 27, 2016.

<sup>5</sup> *IP-Enabled Services; E911 Requirements For IP-Enabled Service Providers et al.*, WC Docket No. 04-36 *et al.*, First Report and Order and Notice of Proposed Rulemaking, Order No. FCC 05-116, note 128, *rel’d* June 3, 2005.

After reviewing HomeWorks' application, the Commission finds that the ETC designation, limited to High-Cost and Lifeline voice support throughout its entire CLEC service area and the census block areas listed in Exhibit 1, should be conditionally granted. The Commission is persuaded that ETC designation for HomeWorks promotes the availability of universal service and is in the public interest. The Commission finds that the application as amended demonstrates that HomeWorks meets the requirements for designation as an ETC. *See*, 47 USC 214(e)(1). The February 6 application for ETC designation is granted on condition that HomeWorks: (1) comply with the service requirements contained in the *USF/ICC Transformation Order* and subsequent related federal and state rulings, the *Lifeline Reform Order*,<sup>6</sup> and the December 20, 2012 and January 17, 2013 orders in Case Nos. U-14535 and U-16959; (2) advertise its Lifeline product in media of general distribution including newspaper, radio, its own website, and other direct advertising methods; and (3) include the Commission's customer complaint telephone number on its public web page.

HomeWorks will be required to re-certify in July 2019 in Case No. U-20357 in accordance with FCC requirements, and annually thereafter, to retain its ETC designation.

THEREFORE, IT IS ORDERED that the February 6, 2019 application filed by Tri-County Electric Cooperative, d/b/a HomeWorks Connect, for designation as an eligible telecommunications carrier for purposes of universal service fund support for both High-Cost and Lifeline throughout its competitive local exchange service area and in the areas listed in Exhibit 1 of that application is approved as modified by this order.

---

<sup>6</sup> *In the Matter of Lifeline and Link Up Reform and Modernization et al.*, WC Docket No. 11-42 *et al.*, Report and Order and Further Notice of Proposed Rulemaking, Order No. FCC 12-11, *rel'd* February 6, 2012 (*Lifeline Reform Order*).

The Commission reserves jurisdiction and may issue further orders as necessary.

Any party aggrieved by this order may file an action in the appropriate federal District Court pursuant to 28 USC 1331. To comply with the Michigan Rules of Court's requirement to notify the Commission of an appeal, appellants shall send required notices to both the Commission's Executive Secretary and to the Commission's Legal Counsel. Electronic notifications should be sent to the Executive Secretary at [mpscedockets@michigan.gov](mailto:mpscedockets@michigan.gov) and to the Michigan Department of the Attorney General - Public Service Division at [pungpl@michigan.gov](mailto:pungpl@michigan.gov). In lieu of electronic submissions, paper copies of such notifications may be sent to the Executive Secretary and the Attorney General - Public Service Division at 7109 W. Saginaw Hwy., Lansing, MI 48917.
