Dear Ms. Dortch:

On March 7, 2019, Claude Aiken, President and CEO of the Wireless Internet Service Providers Association ("WISPA"), and the undersigned met with Umair Javed, Legal Advisor to Commissioner Jessica Rosenworcel, to discuss matters related to the above-referenced proceedings.

**WT Docket No. 19-38**

The WISPA representatives asked that the Commission seek comment in the upcoming Notice of Proposed Rulemaking on whether the benefits intended by the proposed rules should be extended to rural broadband providers that are not "carriers" as defined in Section 616 of MOBILE NOW Act.<sup>1</sup> We explained that strictly limiting the benefits and build-out incentives to "carriers" would exclude broadband providers that are not "common carriers" and provide fewer options for larger carriers wishing to disaggregate, partition, or lease spectrum to rural providers.

**ET Docket No. 13-49**

The WISPA representatives reiterated support for the Commission's adoption of a Further Notice of Proposed Rulemaking with respect to the 5850-5925 MHz band (the "5.9 GHz band").<sup>2</sup> We emphasized that the Commission should understand that the 5.9 GHz band is useful not just for Wi-Fi but for rural broadband under rules that are similar to those used in the adjacent 5 GHz U-NII band.

Pursuant to Section 1.1206 of the Commission's Rules, this letter is being filed in ECFS in each of the above-referenced dockets. Please do not hesitate to contact the undersigned with any questions.

Respectfully submitted,

/s/ Stephen E. Coran
