**Re: Nora Cronin Presentation Academy**

**BEN: 16039840**

**Funding Request No.: 1699033863**

Dear Sir/Madam:

The undersigned represents the Nora Cronin Presentation Academy in connection with a recent denial of an application for aid for the schools technology maintenance program which previously has been underwritten by USAC. The application submitted by the school was for a form 471 for low cost maintenance of an educational internet computer network institution.

Regretfully, my client was under the impression that the application once fully submitted and accepted on line was complete as submitted and that all information needed had been provided.

The denial of the compensation which has been in place for approximately ten (10) years is unfounded and my client believes that the fact that the application was submitted on line and marked as complete should result in the same level of compensation as they have received in the past.

Please review this matter and feel free to contact the undersigned if you wish to discuss this matter further and advise if you will reconsider the denial of the appeal of benefits to my client.

Very truly yours,

Peter D. Tamsen
