

I do not agree with the proposed expansion of Technician class license privileges. Leave it the way it is. You got rid of the code requirement on ALL license classes and you did away with Advanced Class (dumb) and you publish the ANSWERS TO THE TESTS for everyone to find. Don't you think you've dumbed down our hobby enough? HOA and CCR restrictions pose the LARGEST and MOST SIGNIFICANT THREAT to our hobby. If you want to fix something, FIX THAT! The rest is the Internet and the fact that even 8 year old kids carry a powerful communications device in their pockets already (inappropriately called a "smart phone"). Just leave it the way it is, you've dumbed it down enough.
