101Netlink has established policies and procedures to comply with the Federal Communications Commission's (“FCC”) rules regarding the use, disclosure, and access to section 64.2001 et seq. of the Commission's rules, 47 C.F.R. § 64.2001 et seq. 101Netlink has implemented a system by which the status of a customer’s CPNI approval can be clearly established prior to the use of CPNI. 101Netlink is engaged in training their personnel as to when they are and are not authorized to use CPNI, and 101Netlink has an express disciplinary process in place. The training presentation given to employees is available on request.

101Netlink uses CPNI for the limited purposes of initiating, rendering, billing, and collecting for telecommunications services, and may use CPNI, if necessary, to protect its property rights. 101Netlink does not disclose CPNI or permit access to such CPNI to any third parties other than as necessary to provide service. 101Netlink has established a supervisory review process regarding its compliance with the CPNI rules regarding outbound marketing situations and maintains records for one year.
