Donna,
Here is the information about your districts' last iboss renewal from 2015. Per our conversation I have also attached a few datasheets for you and Bill about Microshare's Comprehensive CyberSecurity Strategy and the new NBC iboss platform Please let me know if you have any questions.

iboss Node Blade Chassis

Secure Large Networks with Minimal Hardware Footprint

Whether you're a large enterprise organization supporting an extensive network with high bandwidth, or an MSP/ISP servicing many customers, providing on-premises cybersecurity to high-capacity networks typically requires deploying many hardware appliances to service them. This not only consumes power and creates management overhead; it can eat up space in your already crowded datacenter. The iboss Node Blade Chassis offers revolutionary technology that allows you to keep your data within corporate boundaries, while minimizing CAPEX, eliminating load-balancers, and minimizing the impact on IT resources.

Node Blade Chassis Features

The iboss Node Blade Chassis provides large organizations with unmatched scalability, flexibility, and efficiency by delivering on-premises, advanced cyber threat protection using less power, enabling greater throughput, and minimizing hardware footprint. The Node Blade Chassis is a single rack-mountable chassis that is capable of housing many node blades within it. Node blades slide easily into the chassis, offering instant scalability as your organization's requirements grow. The iboss Node Blade Chassis comes in two form factors, the NBC-14, capable of housing 14 node blades in a 3U chassis and the NBC-28, that houses 28 node blades within its 6U chassis. The Node Blade Chassis automatically distributes bandwidth load across the node blades, eliminating the need for expensive and cumbersome load balancers, reducing costs and management overhead.

Single Node Blades and Multi Node Blades

There are two types of node blades that can be used in a Node Blade Chassis deployment.

A **Single Node Blade** is a blade that houses one node. These are ideal when the maximum performance per node is desired, for example when scanning large volumes of network traffic.

The second type of node blade is a **Multi Node Blade**, which hosts up to four (virtual) nodes on the same hardware blade. Multi Node Blades can be used to completely isolate traffic and reporting data within the same physical hardware, making them an ideal choice for service providers tasked with securing multiple customers, or other consortiums that want to be able to offer services to separate entities.

iboss

Node-Based Platform

iboss redefines the way network cybersecurity is delivered and managed. iboss advanced cybersecurity technology is delivered via a node-based platform that provides greater security, flexibility, and scalability than legacy on-premises appliances and shared cloud network security solutions. iboss gives each organization a dedicated, non-shared, node collection, providing complete isolation and ensuring your data and capacity never overlaps with that of any other customer. The node collection can consist of on-premises nodes, cloud nodes, or a combination of both, providing unmatched deployment flexibility and security.

Advantages of the Node Blade Chassis

- **Delivers advanced security across large distributed organizations** without increasing hardware footprint
- **Lowers TCO and increases ROI** by reducing power consumption and the need for rack space or load balancers
- **Allows you to keep your data local to comply with regulatory or corporate requirements** without heavily consuming resources and increasing costs
- **Offers maximum flexibility** with a large variety of configuration options
- **Gives customers with high capacity environments** the ability to **secure large volumes of data** while keeping hardware and power requirements at a minimum
- **Provides seamless scalability**; slide in a new node blade to increase capacity instantly

MODEL	INLINE DEPLOYMENT	OUT OF BAND DEPLOYMENT	FORM FACTOR
NBC-14	<ul style="list-style-type: none"> • 14 Single node blades • Up to 14 Gbps of web traffic processing • Data Scanning nodes only 	<ul style="list-style-type: none"> • 14 single node blades or 14 multi node blades (totaling 56 nodes) • Up to 80 Gbps of web traffic processing (using multi node blades) • Heterogeneous node types 	
NBC-28	<ul style="list-style-type: none"> • 28 single node blades • Up to 28 Gbps of web traffic processing • Data Scanning nodes only 	<ul style="list-style-type: none"> • 28 single node blades or 28 multi node blades (totaling 112 nodes) • Up to 160 Gbps of web traffic processing (using multi node blades) • Heterogeneous node types 	

Hardware Specifications

	NBC-14 (3U)	NBC-28 (6U)
Blade Module Support	14 × Hot-Swap iboss Node Blade Modules	28 × Hot-Swap iboss Node Blade Modules
CPU	14 × Intel Xeon Processor E5-2630v3	28 × Intel Xeon Processor E5-2630v3
Hard Drive	14 × Intel DC S3500 240GB SSD	28 × Intel DC S3500 240GB SSD
Memory	14 × 32GB DDR4 2133MHz	28 × 32GB DDR4 2133MHz
Workstations	100,000+	
Concurrent TCP/IP Connections	4,000,000/node	
Throughput	Up to 14 Gbps when fully populated with Single Node blades; up to 80 Gbps with Multi Node Blades	Up to 28 Gbps when fully populated with Single Node blades; up to 80 Gbps with Multi Node Blades
Rackmount Chassis	3U Full Size	6U Full Size
Dimensions	36.10 in × 17.67 in × 5.215 in 917 mm × 449 mm × 132.5 mm	10.43 in × 17.67 in × 34.4 in 265 mm × 449 mm × 875 mm
Weight	140 lbs.	280 lbs.
Power Supply	4 × Hot-Swap High-Efficiency 2000W Redundant Fail-Over Power Supplies	
Power Input Current	9.6–12A	
Power Input Voltage	100–240V, 60–50Hz, 4 Amp Max	
Operating Environment	Temp: 0° to 50° C (up to 5000m); Relative Humidity: 80% Operating	
Network Switch Module	<i>When deployed out of band:</i> Broadcom BCM56846 10GbE Low Latency Switch, 2 × 40Gbps QSFP or 4 × 10Gbps SFP+ uplinks <i>When deployed in-line:</i> Intel FM5224 GbE Low Latency Switch, 1Gbps RJ45, 2 × 40Gbps QSFP or 8 × 10Gbps SFP+ uplinks	

About iboss Cybersecurity

iboss Cybersecurity defends today's large, distributed organizations against targeted cyber threats which lead to data loss, with the iboss next-gen Secure Web Gateway Platform, leveraging innovative cloud architecture and patented advanced threat defense technologies. iboss advanced solutions deliver unparalleled visibility across all inbound/outbound data channels, and include security weapons that reveal blind spots, detect breaches and minimize the consequences of data exfiltration. With leading threat protection and unsurpassed usability, iboss is trusted by thousands of organizations and millions of users.

MICROSHARE'S COMPREHENSIVE APPROACH TO A COMPREHENSIVE CYBER SECURITY STRATEGY

MicroShare provides advanced technology solutions for all organizations. When bolstering the triangular approach with the Security Ecosystem, you are adding to the triangular approach a more comprehensive security layered strategy, providing more in depth protection.

For more information on how to incorporate one or all of these methods into your existing network security protocol, contact a MicroShare sales representative today and schedule an online presentation.

Subject: FY 2018-19 E-Rate Validation

As noted in the December 14th Monthly Education Technology call, I am sending your district/school a copy of your School Profile data to use when filing your FY 2018-19 E-Rate application. Please review this information to ensure that it matches your district/school data. If there are any discrepancies, please notate those in the file by adding a column called "Notes" and listing what information needs to be updated. Additionally, if you need to add new sites (new construction, program sites such as Alternative Programs, Non-instructional facilities, etc..) please add those sites to the bottom of the list, highlight them in yellow and notated "added site" in the notes column.

Please return all changes by January 11th. If you have no changes, just reply to this email that all data is accurate.

If you have any questions or need assistance, please email
EdTech@la.gov.

Sincerely,

Carol

Carol Mosley
Education Technology & E-Rate Director

Form 472 (BEAR) Notification Letter

July 26, 2017

Cheryl Revor
BellSouth Telecommunications, LLC
444 Michigan Avenue
Floor 2
Detroit, MI 48226

Re: Invoice Number - as assigned by USAC: 2636382
Service Provider Identification Number: 143004824
Reimbursement Form Number: 16_BellSouth
Billed Entity Number: 139347

Gallemore Don
VERNON PARISH SCHOOL BOARD
201 BELVIEW RD.
112 Harrison Street
LEESVILLE, LA 71446

Preferred Mode of Contact: E-mail at dgallemo@vpsb.k12.la.us
Total Amount of Reimbursement Approved for Payment: \$720427.78

This letter is your notification that the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (USAC) has processed an FCC Form 472, "Billed Entity Applicant Reimbursement (BEAR)" Form from the above named applicant listing you as the service provider. USAC has committed to reimburse the discounted portion of the cost of eligible services provided to eligible entities pursuant to one or more FCC Forms 471, "Description of Services Ordered and Certification Form".

In certain instances, a line may not have been paid. Review the BEAR Letter Applicant Reimbursement Report (Report) following this letter for the reason(s) this may have occurred. For more information about lines that have not been paid, see the explanation of Invoice Error Codes in Step 9 on our website. Work with the applicant (your customer) to correct any errors. Once corrected, your customer may submit a new BEAR using the BEAR Online tool from the Apply Online area or Required Forms section of our website to request reimbursement for any unpaid lines.

If a new BEAR cannot be submitted before the invoice deadline passes, you or your customer may submit a request for a deadline extension. (See "Invoice Deadlines and Extension Requests" posted in the SLD section of our website for more information.)

TO APPEAL THIS DECISION:

If you wish to appeal a decision in this letter to USAC, your appeal must be received by USAC or postmarked within 60 days of the date of this letter. Failure to meet this requirement will result in automatic dismissal of your appeal. In your letter of appeal:

1. Include the name, address, telephone number, fax number, and email address for the person who can most readily discuss this appeal with us.
2. State outright that your letter is an appeal. Include the following to identify the USAC decision letter (e.g., FCDL) and the decision you are appealing:
 - Appellant name,
 - Applicant name and service provider name, if different from appellant,

- Applicant BEN and Service Provider Identification Number (SPIN), - FCC Form 471 Application Number and the Funding Request Number (FRN) or Numbers as assigned by USAC,
- "Funding Commitment Decision Letter for Funding Year 2015," AND
- The exact text or the decision that you are appealing.

3. Please keep your letter to the point, and provide documentation to support your appeal. Be sure to keep a copy of your entire appeal, including any correspondence and documentation.

4. If you are the applicant, please provide a copy of your appeal to the service provider(s) affected by USAC's decision. If you are the service provider, please provide a copy of your appeal to the applicant(s) affected by USAC's decision.

5. Provide an authorized signature on your letter of appeal.

We strongly recommend that you use one of the electronic filing options. To submit your appeal to USAC by email, email your appeal to appeals@sl.universalservice.org or submit your appeal electronically by using the "Submit a Question" feature on the USAC website. USAC will automatically reply to incoming emails to confirm receipt.

To submit your appeal to USAC by fax, fax your appeal to (973) 599-6542. To submit your appeal to USAC on paper, send your appeal to:

Letter of Appeal
Schools and Libraries Division - Correspondence Unit
30 Lanidex Plaza West
PO Box 685
Parsippany, NJ 07054-0685

For more information on submitting an appeal to USAC, please see "Appeals" in the Schools and Libraries section of the USAC website.

The maximum remaining amount available for each Funding Request Number (FRN) listed on the Report will be the original commitment less the amount approved herein for reimbursement and less any earlier disbursements to your customer.

PLEASE NOTE: The type of invoice form (BEAR or SPI) for the funding year is established by the receipt and approval of the first invoice submitted for the FRN for the funding year. For example, if we successfully process a BEAR for an FRN, we will not approve a SPI for that same FRN at a later time.

Please see the Guide to Letter Reports posted on our website for an explanation of the items listed in the attached Report.

COMPLETE PROGRAM INFORMATION is posted on our website. You may also contact our Client Service Bureau using the "Submit a Question" link on our website, toll-free by fax at 1-888-276-8736 or toll-free by phone at 1-888-203-8100.

INDEX OF CURRENT CHARGES BILLED

THANK YOU FOR BEING A VALUED CUSTOMER. PLEASE BE AWARE THAT ALL CHARGES MUST BE PAID EACH MONTH TO KEEP YOUR ACCOUNT CURRENT AND PREVENT COLLECTION ACTIVITIES. WE ARE REQUIRED TO INFORM YOU THAT CERTAIN CHARGES MUST BE PAID IN ORDER TO PREVENT INTERRUPTION OF BASIC LOCAL SERVICE. THESE CHARGES ARE ALREADY INCLUDED IN THE TOTAL AMOUNT DUE AND ARE \$61,679.57CR. ALSO, NEGLECTING TO PAY FOR REMAINING CHARGES MAY RESULT IN INTERRUPTION OR REMOVAL OF THESE REMAINING SERVICES OR FURTHER COLLECTION ACTION.
