Dear Ms. Dortch:

On March 25, 26, and 27, 2019, representatives of CTIA met with Erin McGrath of the Office of Commissioner Michael O’Rielly, Umair Javed of the Office of Commissioner Jessica Rosenworcel, William Davenport of the Office of Commissioner Geoffrey Starks, and representatives of the Wireless Telecommunications Bureau to discuss the above-captioned proceedings. A full list of meeting attendees is attached to this filing.

During the meetings, CTIA commended the Commission on its progress toward making spectrum available to support next-generation wireless use, and for its efforts to modernize infrastructure siting policies. CTIA highlighted how smart spectrum policies can unlock the enormous promise of 5G and spur U.S. global technological leadership, and urged the Commission to act quickly to make additional spectrum—especially in the mid-band range—available for terrestrial wireless use.¹
