RE: CC Docket No. 02-6

To whom it may concern,

On behalf of The King's Academy (USAC entity #17003936 and FCC Registration Number 0025213653) I am requesting a Window Waiver Request for submission of a USAC Form 471 applications in relation to the E-Rate program for the 2018 funding year.

The delay is a result of the fact that the funding request is for broadband services and voice services that were originally funded in 2015 through the E-Rate program and for which the contract for said services expires in 2020. It was our understanding that the funding approved in 2015 would automatically renew given the length of the contract in question. However, we have been advised that this is not the case and that a new funding request is required.

Additionally, we were short staffed during the 471 window due to the flu virus that ran through our school and administrative staff office. We made assumptions that were in error and missed the emails that prompted us to file, we did all of our 470's on a timely basis, but missed the Form 471 deadlines.

As an urban school serving in a very low income community, we depend upon this funding to help us meet our budgetary goals as we serve our community in so many different ways. We are humbly asking that you please consider granting us a waiver for this year's funding, we commit that this will not happen again.

The Form 471 for which we need this waiver is for said funding. The USAC Form 471 application in question are: 181042049, 181042052, 181042053

We hope you will extend the waiver requested so that our applications can be considered for funding.

Sincerely,

Byron Stevenson
