☐ Guying will be required for angle, corner or tap pole construction ☒ Guying is not required

The diagram illustrates the vertical alignment of a cable-stayed bridge deck across multiple spans. A central vertical axis represents the bridge's centerline, with a 'Conduit Riser' shown as a vertical pipe. The 'Top of Conduit Riser' is marked with a horizontal line and labeled 'Ht. _____ (If Below Neutral or Secondary)'. The diagram shows the following data for each span from left to right:

| Span | Mid-Span Ht. | Front | Back | Attach. Ht. | Ht. of Lowest Service or Secondary Drip Loop | Proposed Attach Ht. |
