Section II - LEGAL QUALIFICATIONS

Name of Applicant

Linda D. Beckwith

1. Applicant is (check one box below)

- Individual
- General partnership
- For-profit corporation
- Other
- Limited partnership
- Not-for-profit corporation

2. If the applicant is an unincorporated association or a legal entity other than an individual, partnership, or corporation, describe in an Exhibit the nature of the application.

Exhibit No.
N/A

NOTE: The terms "applicant," "parties to this application," and "non-party equity owners in the applicant" are defined in the instructions for Section II of this form. Complete information as to each "party to this application" and each "non-party equity owner in the applicant" is required. If the applicant considers that to furnish complete information would pose an unreasonable burden, it may request that the Commission waive the strict terms of this requirement with appropriate justification.

3. If the applicant is not an individual, provide the date and place of filing of the applicant's enabling charter (e.g. a limited partnership must identify its certificate of limited partnership and a corporation must identify its articles of incorporation by date and place of filing):

Date N/A Place N/A

In the event there is no requirement that the enabling charter be filed with the state, the applicant shall include the enabling charter in the applicant's public inspection file. If, in the case of a partnership, the enabling charter does not include the partnership agreement itself, the applicant shall include a copy of the agreement in the applicant's public inspection file.

4. Are there any documents, instruments, contracts or understandings (written or oral), other than instruments identified in response to Question 3 above, relating to future ownership interests in the applicant, including but not limited to, insulated limited partnership shares, nonvoting stock interests, beneficial stock ownership interests, options, rights of first refusal, or debentures?

Yes No

If Yes, submit as an Exhibit all such written documents, instruments, contracts, or understandings, and provide the particulars of any oral agreement.

Exhibit No.
N/A

5. Complete, if applicable, the following certifications:

(a) Applicant certifies that no limited partner will be involved in any material respect in the management or operation of the proposed station.

Yes No

If No, applicant must complete Question 6 below with respect to all limited partners actively involved in the media activities of the partnership.

(b) Does any investment company (as defined in 15 U.S.C. Section 80 a-31), insurance company, or trust department of any bank have an aggregated holding of greater than 5% but less than 10% of the outstanding votes of the applicant?

Yes No

If Yes, applicant certifies that the entity holding such interest exercises no influence or control over the applicant, directly or indirectly, and has no representatives among the officers and directors of the applicant.

Yes No
N/A

7. Does the applicant, any party to the application or any non-party equity owner in the applicant have, or have they had, any interest in:

- (a) a broadcast station, or pending broadcast station application before the Commission? Yes No
- (b) a broadcast application which has been dismissed with prejudice by the Commission? Yes No
- (c) a broadcast application which has been denied by the Commission? Yes No
- (d) a broadcast station, the license of which has been revoked? Yes No
- (e) a broadcast application in any pending or concluded Commission proceeding which left unresolved character issues against the applicant? Yes No

If the answer to any of the questions in (a)-(e) above is Yes, state in an Exhibit the following information:

Exhibit No. N/A

- (1) Name of party having interest;
- (2) Nature of interest or connection, giving dates;
- (3) Call letters of stations or file number of application or docket; and
- (4) Location.

- 8. (a) Are any of the parties to the application or non-party equity owners in the applicant related (as husband, wife, father, mother, brother, sister, son or daughter) to each other? Yes No
- (b) Does any member of the immediate family (i.e., husband, wife, father, mother, brother, sister, son or daughter) of any party to the application or non-party equity owner in the applicant have any interest in or connection with any other broadcast station, pending broadcast application or newspaper in the same area (see Section 73.3555(c)) or, in the case of a television station applicant only, a cable television system in the same area (see Section 76.501(a))? Yes No

If the answer to (a) or (b) above is Yes, attach an Exhibit giving full disclosure concerning the persons involved, their relationship, the nature and extent of such interest or connection, the file number of such application, and the location of such station or proposed station.

Exhibit No. N/A

9. State in an Exhibit any interest the applicant or any party to this application proposes to divest in the event of a grant of this application.

Exhibit No. N/A

OTHER MASS MEDIA INTERESTS

- 10. (a) Do individuals or entities holding nonattributable interests of 5% or more in the applicant have an attributable ownership interest or corporate officership or directorship in a broadcast station, newspaper or CATV system in the same area? (See Instruction B to Section 11.) Yes No
- (b) Does any member of the immediate family (i.e., husband, wife, father, mother, brother, sister, son or daughter) of an individual holding a nonattributable interest of 5% or more in the applicant have any interest in or connection with any other broadcast station, pending broadcast application, newspaper in the same area (see Section 73.3555(c)), or, in the case of a television station applicant only, a cable television system in the same area (see Section 76.501(a))? Yes No

If the answer to (a) and/or (b) above is Yes, attach an Exhibit giving a full disclosure concerning the persons involved, their relationship, the nature and extent of such interest or connection, the file number of such application, and the location of such station or proposed station.

- (1) Protected and interfering contours, in all directions (360°), for the proposed operation.
- (2) Protected and interfering contours, over pertinent arcs, of all short-spaced assignments, applications and allotments, including a plot showing each transmitter location, with identifying call letters or file numbers, and indication of whether facility is operating or proposed. For vacant allotments, use the reference coordinates as the transmitter location.
- (3) When necessary to show more detail, an additional allocation study utilizing a map with a larger scale to clearly show prohibited overlap will not occur.
- (4) A scale of kilometers and properly labeled longitude and latitude lines, shown across the entire exhibit(s). Sufficient lines should be shown so that the location of the sites may be verified.
- (5) The official title(s) of the map(s) used in the exhibit(s).

14. Are there: (a) within 60 meters of the proposed antenna, any proposed or authorized FM or TV transmitters, or any nonbroadcast (except citizens band or amateur) radio stations; or (b) within the blanketing contour, any established commercial or government receiving stations, cable head-end facilities, or populated areas; or (c) within ten (10) kilometers of the proposed antenna, any proposed or authorized FM or TV transmitters which may produce receiver-induced intermodulation interference?

Yes No

If Yes, attach as an Exhibit a description of any expected, undesired effects of operations and remedial steps to be pursued if necessary, and a statement accepting full responsibility for the elimination of any objectionable interference (including that caused by receiver-induced or other types of modulation) to facilities in existence or authorized or to radio receivers in use prior to grant of this application. (See 47 C.F.R. Sections 73.315(b), 73.316(e) and 73.318.)

ENGINEERING STATEMENT COVERING
APPLICATION FOR CONSTRUCTION PERMIT
FOR LINDA D. BECKWITH
CHANNEL 240A 95.9 mHz
1.56 kW @ 194.6 METERS HAAT
HEALDSBURG, CALIFORNIA

FEBRUARY, 1991

SUMMARY

This statement covers an Application for Construction Permit for a new FM broadcast station at Healdsburg, California to operate on Channel 240A.

The firm of *Communications Technologies, Inc.*, has been retained by **Linda D. Beckwith** ("**Beckwith**"), to prepare the engineering portion of the instant Application for Construction Permit. Details of the FM operation, as proposed, are included within this report.

TRANSMITTER SITE

The proposed **Beckwith** transmitter site is located approximately 1.5 km north of meeting point of Angel Creek and Mill Creek and 10.1 km west of Healdsburg, Sonoma County, California.

The coordinates and elevation of the site were determined to be:

NORTH LATITUDE:	38° 37' 08"
WEST LONGITUDE:	122° 58' 48"
ELEVATION:	390.1 meters AMSL (See <i>Figure 1</i>)

In accordance with *FCC Rules and Regulations, Section 73.207*, an allocation study has been conducted for the proposed site location and is submitted herein as *Table III*. The proposed facility will not create a short spacing to any proposed or existing facilities.

This statement is in response to *Question 14 of FCC Form 301, Section V-B*. There are no known FM or TV transmitters within 60 meters of the proposed site nor any TV facilities within 10 km of the site proposed herein. There is one licensed FM facility, KCGG, Monte Rio, California, whose transmitter site is located 8.9 km from the applicant's proposed site.

If any adverse effect should be caused by the applicant's proposed operation to any station of the type referenced in the preceding paragraph, remedial steps of accepted standards of good engineering practice shall be taken to alleviate any undesirable interference.

Applicant hereby certifies that it shall accept full and complete responsibility for the elimination of any objectionable effect on existing stations caused by the facility proposed by this application.

ANTENNA AND SUPPORTING STRUCTURE

The antenna proposed is a Shively 6810-2. This antenna has an RMS power gain of 1.0 in both the horizontal and vertical planes. The antenna will be side mounted on the proposed 24.4 meter guyed tower. The center of radiation is 21.3 meters above grade level and 194.6 meters above average terrain. Null fill and beam tilt are not employed. *Figure 3* is a vertical plan sketch of the proposed tower and antenna system.

TRANSMITTER POWER OUTPUT AND TRANSMISSION LINE

The applicant proposes the use of a Continental 814R-1 transmitter. The transmitter rated power output is 2.5 kW and will be operated at a power output of 1.70 kW. This amount of power, considering transmission line loss and antenna power gain, results in an effective radiated power of 1.56 kW for both the horizontal and vertical planes.

A 100 foot length of 7/8" pressurized coaxial transmission line will be used between the transmitter and antenna. This line, *Cablewave Type HCC 78-50J*, has a rated efficiency of 91.81% at the specified operating frequency.

TOPOGRAPHY

The average elevation of the terrain between 3 and 16 kilometers from the antenna site has been determined utilizing the latest version of the National Geophysical Data Center's thirty second point topography data base (*NGDC 30*). A Linear interpolation method is used to obtain intermediate points along each radial. The method used conforms to the linear interpolation method specified by the *FCC in Public Notice # 3736, FCC 84-341*, dated July 13, 1984.

The average elevation of eight radials from 0 degrees to 315 degrees True, at increments of 45 degrees, has been computed along with an additional radial at 95 degrees True which passes through Healdsburg. Data applicable to the nine profile radials is tabulated on *Section V-B of Form 301, Page 5 and Table II* of this statement.

COVERAGE AREAS

Figure 2 is a 1:500,000 scale base map on which has been drawn the proposed 70 dBu and 60 dBu contours from the proposed site location. Population and square kilometer area for the site are also shown on *Figure 2*. A 7 1/2 minute topographical map and census map were used to define the corporate boundaries of Healdsburg.

A polar planimeter was used to measure the total land area within the proposed 60 dBu contour. The population within this area was calculated utilizing a computer program of known accuracy and repeatability. Population data is based on corrected 1980 United States Census figures for the state of California. These contours have been delineated on the basis of omni-directional radiation, topography data as listed herein, and *Figure 1 of FCC Section 73.333*.

ENVIRONMENTAL IMPACT STATEMENT

This statement is made in response to *Question 20 of FCC Form 301, Section V-B*. Beckwith proposes to install a guyed radio tower 24.4 meters in height. FAA code painting and lights are not required.

The tower site is located near Healdsburg, Sonoma County, California. No known controversy exists over the use of the proposed transmitter site.

The site is not believed to be located in a national flyway nor is it located in an officially designated wilderness area or in an area whose designation as a wilderness area is pending consideration. The site area is not significant from a historical, architectural, archeological, or cultural standpoint. The site is not listed in the National Register of Historic Places. Actual construction of the proposed tower will have negligible impact, since an access road to the site is existing and power is located nearby.

RF radiation from the proposed facility has been reviewed in accordance with the "Radio Frequency Protection Guides", adopted by the *American National Standards Institute, (ANSI C95.1-1982)*. RF radiation from the proposed facility will not have a significant environmental impact.

EMERGENCY POWER

Beckwith proposes to install motor driven power generators at its studio and transmitter sites. The generating equipment will be used whenever there is a commercial power outage, so that service to the public will be essentially uninterrupted.
