

*Training Youth As Disciples Of Christ  
For Life Long Service To Their Savior*

Schools and Libraries Program: CC Docket No. 02-6

To whom it may concern:

Our high school is requesting a waiver of the 22 March 2018 deadline to file a Form 471 with the Universal Service Administrative Company (the Schools and Libraries or "E-rate" Program). Because our school is a new build on undeveloped land, we do not yet have a variety of options for internet service providers. Currently, our only options are an old DSL line at 5 Mbps download or a cellular modem running somewhere between 5 and 80 Mbps download depending upon traffic. We have been waiting for a faster, less expensive option to materialize, which did not happen. Our goal is to file a Form 471 with USAC for one of the two listed options for internet service soon.

Our address and other contact information lies below. Our FCC registration number is 0026996488, and our USAC billed entity number (BEN) is 17015956.

Thank you for your consideration,

*Eric A. Brucker*
