

I am opposed to the acquisition of Tribune Media by Sinclair Broadcast Group. This is a dangerous consolidation of media outlets into a single ownership structure. Our democracy depends on local news that is independent and free from the influence of one owner across multiple channels, states and mediums.

The FCC's mission calls it to support competitive telecommunications networks and, historically, it was required to ensure that a diversity of voices and opinions could be heard on the air or in print. This is vital to our citizens' best interests and regardless of the current administrations corporate-friendly stance, this merger is NOT in the best interests of the country.

Please deny this merger.
