Subject OpenBand of Virginia, LLC Discontinuation of Service Proceeding WC 19-45

Dear Secretary Marlene H. Dortch,

DOCKET FILE COPY ORIGINAL

I would like to object to OpenBand of Virginia, LLC shutting down its service on April 1, 2019 in the Lansdowne Village Greens community until such time that all customers have had ample time to switch to Comcast Cable Communications Management LLC ("Comcast"). I am convinced that a good percentage of existing internet, phone and video customers will lose service as they have not been given ample time switch to Comcast. I ask that the FCC obtain from OpenBand the actual number of customers still on its network and progress that Comcast has made with installations since they started rolling out service.

Thank you,

Concerned customer

Leesburg VA 20176
