

April 5, 2018

USAC/FCC

To Whom It May Concern:

Riverway Learning Community, a small public school of 120 students in Winona, MN is submitting this waiver for certification of FCC Form 471 to be considered for funding.

We have received funding each of the last 3 years, and it is very important for us to provide our quality programs to our high need population of students.

Unfortunately, a date error occurred in which the filer believed that March 22 was the first deadline for Form 470 and not Form 471. Form 470 was filed March 8. This meant that Form 470 could not be filed by the deadline of March 22.

On April 5, form 471 was submitted for Billed Entity Number 226028 under Application number 181042385. We ask for a waiver for this application to be considered, even though it was not submitted by the deadline.

Thank you for your consideration.
