To Whom It May Concern:

The Hancock Public Schools (BEN: 131776) is requesting a waiver from the FCC for FY 2018 for their Form 471 #181042297. The District has annually filed a Category One Form 471 since the programs' inception, but inadvertently missed the deadline date this year. The funding has become more impactful in recent years for the District due to significant budget constraints and public school funding shortfalls within the State.

Please consider granting the Hancock Public Schools a waiver for the much needed Category 1 reimbursement for Internet Access district wide. The reimbursement allows the District to fund other much need student programs and supplies.

Thank you for your time and consideration.

Sincerely,

Kipp Beaudoin
Superintendent of Schools
