Hi Gina,

I am happy to inform you that last evening the C-FC School Board passed a motion directing the administration to engage in discussions leading to CCT becoming the District's broadband provider. Attached is a document provided to the board that includes the motion and information relevant to the decision.

One of my requests to the board was to provide flexibility to both the District and CCT in the implementation process. My purpose in requesting this was to allow the two entities the time and effort needed to share information and understand the others concerns and wishes. It is evident the motion does allow for the appropriate flexibility.

The no cost service period is greatly appreciated and eliminates some of the stress of dual service for the short period requested.

Next week is difficult for me to meet but anytime after that I would be ready to discuss the matter.
Maybe a starting point would be a planning discussion with you and your technician and myself and Jim Huffman the District's technician.

Thanks,

Tom
