**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint. T-Mobile and Sprint directly compete with each other in several markets – and if this merger goes through, the new company would be free to jack up prices and cut quality of service. This goes double in the prepaid phone market, which primarily serves low-income Americans and other marginalized communities – T-Mobile/Sprint would control 60% of that market, giving them free reign to price out millions of people who'd have few other alternatives.

Simply put: if this deal goes through – we all lose. A marketplace where Verizon, AT&T and T-Mobile call the shots means fewer choices, higher prices, and a wider digital divide. because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

These two companies are already profitable enough. They do not need to be merged and consumers should have the right to choose which wireless phone carrier is right for them based on their budgets.

Not even towns or municipalities should be allowed to choose which companies will serve their consumers. This is called big monopolies being allowed by local governments and the same should apply with television services.

Here's an idea guys 'n' gals: do what's actually in the best interest of consumers, not the higher-ups in these corporations.

YOU KNOW darn well that these mergers absolutely Do Not help consumers, they only reduce choices and raise prices.

YOU KNOW these mergers only enrich people that are already rich beyond the dreams of average customers.

YOU KNOW that approving these mergers is morally and ethically wrong.

So change your ways! Do what's right for a change! Reject this and all of these near-monopolistic mergers!

Thank you very much.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

**Stop the T-Mobile / Sprint Merger!**

I oppose the proposed merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

While T-Mobile as an independent company has been a force to lower the costs of wireless service, a successful T-Mobile/Sprint merger would still reduce competition in the wireless market, and almost certainly lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you and the other commissioners to block this merger, and support a marketplace that offers genuinely competitive and affordable services for all Americans.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

## **No T-Mobile / Sprint Merger**

As a T-Mobile customer, I strongly oppose the proposed merger between T-Mobile and Sprint.

When I signed up with T-Mobile more than a decade ago, there were many choices in wireless providers. That number has shrunk with each passing year, and with it, carriers' competitiveness and responsiveness to customers. Put simply, fewer choices means higher prices for poorer service. I have no doubt that allowing this merger will be bad for me as a T-Mobile customer!

On balance, the interests of millions of U.S. consumers must outweigh the profit potential of a few communications giants. For that reason, the proposed merger should be rejected.

Sincerely,

Aaron Severson

## **Stop the T-Mobile / Sprint Merger!**

The republic is under siege by a terrorist group known as "neoliberals." They have infiltrated Congress, control the president, and are using this power to steal our common wealth divert it to the 1%. As part of this concerted coup they propose to control the media. If you allow them, people of color will be vanquished from the land, a new fascist regime will take hold, and your family will be either killed or sent back to India, as is happening with Latinos. You look just like them.

I oppose the merger between T-Mobile and Sprint because our democracy can only function in the interest of justice when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger will also reduce competition in the wireless market and lead to higher prices for wireless customers. Their goal is to acquire rents as well as control over the masses. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services will find themselves displaced from wireless access, isolated, marginalized, and increasingly oppressed.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans; one that provides a plurality of opinions and opportunity for debate and consensus building, per our democratic values.

The myth of "de-regulation" as a cure all is a rouse to empower a racist elite in control of our great nation. You can stymie this assault and join the resistance which seeks to restore our republic, the right to pursue our ambitions unhindered by a rentier racist class.

While this union does not meet the dictionary definition of monopoly, and thus can't be halted that way, it will greatly decrease competition, and as a result, harm consumers. A free market, with open competition, and transparency, is often touted as the basis for a functioning democracy, with the public selecting winners and losers, keeping quality high, and prices low. This merger stifles that dynamic.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

David Kueneman

Please do not approve the merger between T-Mobile and Sprint because it will reduce competition which is what capitalism is supposed to be.

I live in a rural area and I see more and more each day that the young people around me are having increasing difficulty in getting the technology that they need access to to prosper because they cannot afford it. Competition in the open market will help alleviate this problem. A merger between T-Mobile and Spring will just exacerbate it. Please do not approve the merger.

**Stop the T-Mobile / Sprint Merger!**

The proposed merger between T-Mobile and Sprint goes against everything our country stands for as our democracy functions best when we have access to affordable and competing wireless voice and broadband services.

A Sprint/T-Mobile merger would reduce competition in the wireless market and lead to higher prices for wireless consumers. This will (possibly deliberately) affect Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services. They may also find themselves displaced from wireless access.

We demand that you assist with blocking this merger and support a marketplace that offers competitive and affordable services for all Americans. Privatizing more and more consumer services with increasingly larger companies will only hasten an economic collapse.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Competition is what makes our marketplace competitive. Mergers only limit the number of choices available to the consumer. The consumer is the most important unit in our free market. Take care of the consumers!

Sincerely,

Betty Anderson

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

Nothing about this merger serves the American people. Not one thing! This merger creates yet another behemoth corporation that will be "too big to fail" - and will bully customers into higher fees, control web/internet access and rates unfairly, and otherwise cause issues that are insurmountable for US citizens. The power created by such a monopoly is already being seen in local and regional markets. If you don't have the good sense to stop this merger because of proper understanding of your mandate at the FCC, then QUIT YOUR JOB NOW - BECAUSE YOU ARE NOT DOING YOUR JOB BY LETTING THIS MERGER PROCEED. You will be found out as the charlatan and corporate shill that you are. Step down or refuse this merger - those are your clear choices as chairman.

**Stop the T-Mobile / Sprint Merger!**

I legally vote in EVERY general election!

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

Paul Till

## **End the T-Mobile / Sprint Merger!**

As our Nation's current FCC Chairman—appointed public servant and employee of over 330,000,000 Americans—we collectively oppose the proposed merger between T-Mobile and Sprint.

As one of millions of Rural Americans—we especially oppose this merger.

Respectfully.

It could be said that our democracy functions best when we collectively have access to robust and affordable wireless voice and broadband services.

In Rural America multiple millions of us, still do not have access to the internet. If we do, the service is poor and the cost is prohibitive. This affects not only our individuals, families, students, schools and libraries but our communities' small and large hospitals, infrastructures, businesses, livelihoods and economy.

Millions of Rural Americans Rural agree with Common Cause:

"A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access."

Please Chairman Ajit Pai, we implore you to block this T-Mobile / Sprint merger that will adversely affect countless Americans in the short and long term. Instead, please support a marketplace that offers competitive and affordable services for all Americans—whether rural, suburban or urban—in order to benefit lives, in real and subtle ways.

With appreciation for your time and thoughtful consideration on this matter.

Every good intention.

Sincerely,

Rita Arena

### **Stop the T-Mobile / Sprint Merger!**

I'm a 74 year old woman, retired on a fixed income! The merger of these two behemoths is not going to lower what I now pay nor or make my service better! It is on & off and iffy now!

Why should the citizens of this country support a merger that is going to get them even worse service?

Unforgivable!! And we won't forget who & why the people in this administration shoved it down our throats!

At the beginning of the 20th C., we learned in elementary school about monopolies and that laws were passed to prevent any one entity to have the power to make its own regulations for its benefit and the detriment of the public. And now we are back to fighting monopolies, because the governments under Carter to this creature have allowed this to happen. This, once again, must be stopped.

T-Mobile is a company

As such it thinks like a company. By definition, this means that Profit is more important than People.

That also means that if services cost them almost nothing, but they can charge for them, they will... To their own detriment and to the detriment of the People.

Especially if they are large and powerful.

For example, T-Mobile has historically throttled phone hotspots by a factor of as much as 100X in spite of the fact that they have already delivered and charged the customer for the hotspot Internet bandwidth. They will, of course, remove to hotspot throttling for an increased monthly fee.

Unfortunately, this means that the poor customer at the end of the line in a trailer park or in the country without locally offered ISP service such as my friend Ralph outside of Sheridan, Oregon can not have any useful wifi from someone like T-Mobile without paying more. What is more, a few years ago my Friend Ralph was charged about \$1500 for running over the limit on a Verizon phone hotspot.

My own experience with T-Mobile on a hotspot is that I wished download very large Garmin map every few months over T-Mobile to my wifi... Which takes 5 or 10 hours. Which could be shortened a lot through an unthrottled hotspot. Also, in spite of the fact that their hotspot throttling had NOTHING to do with my Sonic.net wifi, I believe their throttling limited my hotspot through Sonic.net to the T-Mobile limit in spite of the fact they did NOT sell me my OnePlus 5T phone and should have no restraints on my wifi service. When I complained instead of removing the throttling from my wifi hotspot, I believe they reconfigured my OnePlus phone to disallow the possibility of the combination of hotspot/wifi connection, thus increasing the interference with my independent ISP service.

This indicates to me, the larger the company, the more likely the arrogant disregard for the customer.

What is forgotten by the politicians and the law in all this is that every single penny these big companies make ultimately comes from the pocket of a consumer somewhere down the line as the ultimate source of ALL the money these companies make. WITHOUT THE CONSUMERS THEY WOULD NOT BE ANY BIG COMPANIES.... PERIOD.

As such, these companies, especially the big ones that effect millions of people, should not even exist because of their inability to be attendant to the diverse needs of individuals.... The same individuals to whom the the big companies owe their very existence.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

With Net Neutrality gone, we are seeing slower and slower access. The Telcos have taken the money we pay government to allow libraries to connect cheaply, but the mergers and CEOs greed continues to pile up the cost of access to everything...job information, government information is disappearing by administration edict. **Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint. Monopolies are great for the greedy jerks who achieve one, but hell for just about everyone else. It doesn't do our democracy any good either. In many ways it will destroy democracy outright. No one will be able to depend on the monopoly companies to do right by anyone. We must have access to robust and affordable wireless voice and broadband services.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

When 'Ma Bell' had a monopoly on our phone service we decided that needed to end, and for numerous excellent reasons. Those reasons still stand and are even more relevant today than ever. Monopolies are bad: choices are better. It's that simple and it's the only acceptable choice. No merger!

Aren't Anti-Trust laws for preventing monopolies like a merger between T-Mobile and Sprint? This is yet another alarming merger.

So, as an American Citizen who believes there are still a few in government with integrity and of good conscience, oppose the merger between T-Mobile and Sprint. And yes, I am a T-Mobile customer. I left ATT because they're up to their old monopolizing ways.

Our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

I oppose the merger between T-Mobile and Sprint because it will eliminate some of the needed competition in our wireless voice and broadband services companies.

Clearly, the proposed merger between T-Mobile and Sprint is at odds with consumers' continuing to access robust and affordable wireless voice and broadband services, and it would be one step closer to creating another corporate oligopoly in the United States.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. "Competition is good. More competition is better. More and more market vertices are dominated by just a few giant corporations, many of which are part of international mega corporations that more often than not pay little to no corporate income taxes.

Further, because so few companies are competing for the same employees, there is little to no competitive pressure to increase wages and so-called "benefits

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

P. A. O'Connor
