A merger between T-Mobile and Sprint would reduce competition in the wireless communications space even more. We Americans proclaim the free enterprise and competition are the way to the future. We need to keep these two companies separate to keep competition vital and prices lower.

The prices charges by wireless companies are outrageously high, because only a few companies are in this space. The same issue exists with cable companies. They have exclusive franchises and so can charge whatever they want. We should not let this happen to the wireless market.

**Reject the T-Mobile and Sprint Merger**

I strongly oppose the proposed merger between T-Mobile and Sprint because it will decrease competition in a market that already has few choices. It will result in lower quality service at higher prices.

Many Americans rely on these two services because they offer more affordable mobile plans. This merger would wind up blocking many of them from having access at all.

Reject this merger and keep the market competitive and affordable.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

Libba Halavey  
Willoughby, Ohio

If anti-trust laws ever have any application, it is surely here, in the merger of the 3rd and 4th largest telecoms. Monopolies create economic inefficiencies. That is bad news for consumers who will pay more and have fewer choices, but it will also be bad for the economy, as monopolistic profits are lost benefit to the economy at large.

For markets to operate efficiently, there must be effective competition. This merger would diminish competition in a dynamic market, to the disadvantage of consumers - household and business - and the economy as a whole.

Please refuse to grant permission for this merger.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Wasn't a law put in place to STOP MONOPOLIES? One giant corporation eating/buying up all the smaller ones? Well I guess as long as we have a CORRUPT REPUBLICAN CONTROLLED CONGRESS who not only gets paid enormous tax payer salaries PLUS CORPORATE SALARIES and every single day do the corporate bidding. I learned in school..way back whwn, when a or any country works for corporations that's called FASCISM. WHILE these pillars of society SPIT on the Constitution and put party before country and our CHECKS and BALANCES were put in place to make sure this doesn't happen, they too have been ignored. What a crying shame and insult to every American.

## **Stop the T-Mobile / Sprint Merger!**

A merger between two large mobile providers should not be allowed. As a consumer I have found from sad experience that mergers do NOT make my life better. In fact, the quality of service often goes down and the costs of the product or service go higher. Competition between corporate entities is what keeps them on their toes.

I have been a customer of T-Mobile since I first signed up with Voicestream. Generally I am happy with the service I get from T-Mobile. If they begin to act like my business is not important to them, I can threaten to move my money to another provider. However as these other companies are getting gobbled up to make bigger and bigger and fewer providers, that possibility for me to change is diminished. And there goes the ability of the customer/consumer to hold corporate feet to the fire.

Therefore, I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers.

Fair Competition is a good thing. It forces innovation and forward thinking. Anything which lessens competition will generally lead to complacency. "I don't have to innovate, I have a lock on the market and now I can sit back and watch my profits mount." Verizon already does this because they have the rural areas as a virtual monopoly and they don't have to care about good service. I'm just sorta glad to have service at all. More competition might force them to really care about their rural customers. I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

**Stop the T-Mobile / Sprint Merger!**

T-Mobile & Sprint are pushing a \$26 billion merger that would combine the third and fourth largest wireless carriers in the country. That'd mean less competition, higher prices, and fewer options for wireless customers -- particularly for low-income and other marginalized communities that rely on affordable wireless service. A marketplace where Verizon, AT&T and T-Mobile call the shots means fewer choices, higher prices, and a wider "digital divide". Our democracy depends on having the tools we need to communicate with each other to fully participate in a 21st century society. That's why I asked the FCC to reject the T-Mobile/Sprint merger.

**Stop the T-Mobile / Sprint Merger!**

Bigger isn't better. These mergers only seem to help stockholders, and raise prices for customers.

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

David Childs

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

## **Stop the T-Mobile / Sprint Merger!**

I STRONGLY oppose the T-Mobile / Sprint merger

Our society today requires that EVERYONE have access to technology .... but when just 3 companies have a stranglehold on the market, that just won't happen. Their only interest will be upping prices, and therefore pricing more and more people out of the market.

Face it: in today's world, access to robust and affordable wireless voice and broadband services is a NECESSITY for a first-world nation.

A T-Mobile/Sprint merger would reduce competition in the wireless market. It would do nothing for better service or more access. ALL IT WILL DO IS RAISE PRICES.

Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves flat out of luck. That is third-world stuff.

I urge you to block this merger.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

### **Stop the T-Mobile / Sprint Merger!**

If these two corporations knocked on my door, I'd shoot both in the knee-caps on the basis of self defense. Really, they are literally combined their efforts of looting the middle class with binding arbitration contracts which provide all the rights for them to win and you pay. How is that a good thing?

Really, if T-mobile doesn't have a knee cap then why do they always want to take ours?

I say shoot 'em in the kneecaps and see if they can empathize, which of course they can't do because they are merely fronts for giant operatives which pry increasing larger amounts of our money into the 1% which already has the vast majority of control over our lives and those of our grandchildren's grandkids.

Enough's enough. Shoot their kneecaps and tell them to fire the CEO's who want all that money in bonuses and you can bite my ass.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

## **Stop the T-Mobile / Sprint Merger!**

Hello! I'm on a fixed income. This means I budget for housing, food, medicine, etc. I have a prepaid phone. I am very frugal with my minutes.

This merger will allow a mega corporation to set any fee for my minutes that they wish to set. Without minutes for my phone, I don't have one. How many millions of us are going to lose their phone?

Please oppose this merger.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

It is a well-established fact that corporate mergers in industries that serve the public, including the wireless industry, result in less competition, and that results in fewer options for consumers, less corporate accountability to consumers, and higher prices to consumers. I am a T-Mobile customer, and am afraid that permitting T-Mobile and Sprint to merge will inevitably end up making my cell phone service cost more and may even result in eliminating the type of service that I have now, which is the only type of cell phone service that works for me. Please do the right thing by the American people and reject this merger.

Sincerely,

Geoffrey Marsh

The potential of mergers of this magnitude facing so much scrutiny would be decreased if a policy of concurrency existed to supplement a push for small businesses providing services in the same consumer pool. Small business that serve a variety of income brackets should be solicited for input. It's only one idea, but a policy that addresses our commitment to increasing competition and acknowledges that monopolies are constitutionally illegal should be in place.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

**Stop the T-Mobile / Sprint Merger!**

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,
