There is already far too little competition when it comes to cell and broadband providers. I speak from personal experience, living in the center of a major metropolitan area, where cell service at my home is so bad, I am unable to watch videos on my mobile devices. Internet service is just as bad, and I have no alternatives. It all looks good on paper, but in many areas, either coverage for a service at a given location is non-existent, or necessary infrastructure is absent.

Stop the T-Mobile / Sprint Merger!

I oppose the proposed merger between T-Mobile and Sprint because the market and our democracy function best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger will reduce competition in the wireless market and lead to higher prices and a deceleration of innovation for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

If we want consumers to have better service for better prices, we need full competition where competing businesses find ways to improve their services in order to win. Mass consolidation removes competitors and allows businesses that are not serious about innovation and improvement to continue to succeed lazily because there's nobody around to threaten their market share.

I urge you to block this merger and support a true capitalist marketplace that achieves good and affordable service through competition between American businesses.

Stop the T-Mobile / Sprint Merger!

Two companies produce nearly all of America's toothpaste; One company produces nearly all the sunglasses; Two companies control nearly all of our credit and debit cards. There are four cable and broadband providers already and they have divided up the Country and rarely compete with each other. There are four major airlines and four major commercial banks. The four internet platform monopolies control information flow, identity data, and virtually our entire lives. This is why I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services. Monopolies stifle innovation and, far from providing better services and controlling cost, soon tighten the noose around our lives. This is why I object to this merger mania that seems to be taking over our Country, and this is just the latest example..

During your tenure as chair of the FCC, the agency has taken the position that marketplace competition is a better guarantor of access to communication services than government regulation. Yet,

the proposed T-Mobile/Sprint, a combining of the third and fourth largest companies in the mobile communications market, is now under consideration. Allowing this merger to go forward would be a disservice to my fellow T-Mobile customers, to me, and to others, particularly those at the lower end of the income scale. I call upon you, then, to reject this clear undermining of the competitive environment which you claim to support.

Stop the T-Mobile / Sprint Merger!

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

America's increasing reliance upon mega-conglomerates makes it nearly impossible for consumers to make important purchases easily and affordably. We just went through a hellish month trying to replace our ancient washer and dryer. The dying conglomerate we tried at first failed to deliver our machines and have yet to refund the nearly \$3,000 we paid them. The second conglomerate did better, but only after several phone calls and return trips. Reduced competition breeds poor service and higher prices.

Stop the T-Mobile / Sprint Merger!

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Stop the T-Mobile / Sprint Merger!

Please don't let T-Mobile and Sprint merge, because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

This merger would reduce competition in the wireless market and would almost certainly lead to higher prices for wireless customers. Since they are direct competitors, reducing the number of telecom businesses doesn't make sense.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

My comment:

There's been an unprecedented level of telecom consolidation in the past few years – and now T-Mobile & Sprint are pushing a \$26 billion merger that would combine the third and fourth largest wireless carriers in the country. That'd mean less competition, higher prices, and fewer options for wireless customers -- particularly for low-income and other marginalized communities that rely on affordable wireless service.

My comment:

The new corporate behemoth T-Mobile and Sprint want to create would cover about 130 million customers nationwide. And, with one less competitor, it'd have much less incentive to offer innovative products or affordable services – just lock down the market and let profits roll in.

Stop the T-Mobile / Sprint Merger!

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sincerely,

Stop the T-Mobile / Sprint Merger!

We suffered with Sprint for many years, tied in with successive two-year service contracts in response to buying new gear that was promised to solve our problem with poor reception. They insisted that they had adequate coverage and we just needed to update our phone or get a booster or whatever. There is a reason we left, and there was an OPTION to leave: another place to go.

Now if T-mobile (our new provider) is merged with Sprint we'll have one fewer option, and they won't have to compete for the quality we need.

Stop the T-Mobile / Sprint Merger!

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services. Our world is rapidly being controlled by large multinational entities - our banks, or media, our transportation system, and now our communications system. It has always been the American tradition to support small companies who can be often more imaginative, more innovative, and more responsive to the needs of their employees and customers.

This merger would go against that tradition. The Justice Dept. broke up the "Ma Bell" system, and look at the innovations that occurred since then. We need to block this merger - it is a blatant lie that larger companies are more fair or responsive to customers. No - they become too big to fight against, and control the system. This would leave just a few companies in this field controlling every communication of Americans. And Comcast, Verizon, AT&T are all already too controlling, unapproachable, fix their pricing to their advantage and have no concern for their customer base.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I have family members who already have experienced higher costs and less service. Locking people in to even fewer options as would happen with this T-Mobile-Sprint merger is one more blow to our democracy. It is my understanding that competition is what makes capitalism so wonderful. This merger would reduce the number of companies competing in this field. Stop the T-Mobile / Sprint Merger!

I oppose the merger between T-Mobile and Sprint because we need access to robust and affordable wireless voice and broadband services.

There's been an unprecedented level of telecom consolidation in the past few years – and now T-Mobile & Sprint are pushing a \$26 billion merger that would combine the third and fourth largest wireless carriers in the country. That would give them a huge advantage in the market place, make for less competition, higher prices, and fewer options for wireless customers -- particularly for low-income and other marginalized communities that rely on affordable wireless service.

Stop the T-Mobile / Sprint Merger!

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

Stop the T-Mobile / Sprint Merger! It will not be good for consumers

In addition to the thoughts below, I think that the T-Mobile/Sprint merger should be rejected because that would move us not only closer to a telecommunications monopoly, but also closer to where the few remaining telecom companies could collude without having to even work very hard at it. We already saw a throttling of services to first responders due to the anti-net neutrality stance of the FCC. We don't need to further exacerbate a bad situation by reducing consumer options.

Stop the T-Mobile / Sprint Merger!

Having only a few big players is bad for consumers and business. Consumers will have fewer choices and higher prices. Less businesses will mean less competition and no incentive to offer better and newer services. This all means less tech and quality employment in a time when these are badly needed. Please prevent these poor results by stopping this merger.

Stop the T-Mobile / Sprint Merger!

I oppose the merger between Sprint and T-Mobile because we need robust competition, as our anti-trust laws require, to allow our economy and democracy to function fairly to all citizens. When we have access to affordable wireless voice and broadband services, we all prosper and improve, including the companies that provide the services. Competition fosters innovation, and this improves technical services, as well as customer service! Please, Chairman Pai, follow the historical spirit and precedent of our anti-trust laws, and deny this merger application!!!

Please do not approve the merger between the third and fourth largest wireless carriers in the country: T-Mobile and Sprint.

This merger would reduce competition in the wireless market and put T-Mobile/Sprint in control of 60% of the pre-paid phone market. The result would be higher prices for wireless customers and less incentive to provide customer service and innovative products. Low-income Americans who rely on T-Mobile and Sprint for more affordable services may find themselves priced out of the wireless market altogether.

is a bad idea.

All this does is limit our choices.

Affordable broadband services is VITAL for an informed public.

Reducing the competition in the wireless market will only lead to higher prices for wireless customers.

I urge you to block this merger and support a country where everyone, yes, even poor people, can afford the internet.

I'm sure there are several members of our government who would be happy for the working class to be unable to access the internet, but their interests are not represented here. The interests of the AMERICAN PEOPLE are.

Stop the T-Mobile / Sprint Merger!

I am a senior, and a low-income individual who relies on Sprint for my telecommunication services. Those services are quite modest but I have no complaints because all I truly need is to be able to contact my family and friends.

If this merger goes through there is a very good chance the Sprint program I am part of could change considerably or simply be ended. Please don't let them do that. I need Sprint's services as they are. I simply cannot afford a price hike due to a merger. Thank you.

I VERY STRONGLY OPPOSE the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services. WE really need competition, more and better choices for consumers and this merger would absolutely do exactly the opposite!!! THERE IS TRULY NO GOOD REASON TO ALLOW THIS MERGER, IT WOULD BE BAD FOR THE AMERICAN CONSUMER!!!

A T-Mobile/Sprint merger would certainly reduce competition in the wireless market and lead to higher prices for wireless customers!! I for one do not want that as I am on a very fixed income!! Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access. PLEASE do not allow this to happen!!

I STRONGLY urge you to BLOCK this merger and support a marketplace that truly offers competitive and affordable services for ALL Americans!!! Thank you!

I oppose the merger between T-Mobile and Sprint because, as a consumer, I am dependent on low-cost wireless services for my family. My kids and I all have older cellphones. We use a low-cost provider (Ting) that depends on the T-Mobile and Sprint networks. If this merger happens, I am very concerned that Ting will no longer have access to provide affordable MVNO service for my family and others who cannot afford higher-end services.

Stop the T-Mobile / Sprint Merger!

I oppose the merger between T-Mobile and Sprint because our democracy functions best when we have access to robust and affordable wireless voice and broadband services.

A T-Mobile/Sprint merger would reduce competition in the wireless market and lead to higher prices for wireless customers. Low-income Americans who disproportionately rely on T-Mobile and Sprint for more affordable services may also find themselves displaced from wireless access.

I urge you to block this merger and support a marketplace that offers competitive and affordable services for all Americans.

Sprint and T-Mobile cannot promise all stores (regardless if corporate or 3rd party owned) will remain open and jobs will be maintained. This is just another case of the rich getting richer and the poor getting poorer. Also Sprint and T-Mobile help add diversity to the wireless landscape. We don't need another "Big Red" or "Big Blue" when there is such a large market for competitively priced plans. This will hurt customers and will definitely hurt local business owners and employees that depend on these jobs to feed their children!
