Re: *Update to Parts 2 and 25 Concerning Non-Geostationary, Fixed-Satellite Service  
Systems and Related Matters, IB Docket No. 16-408*

Dear Ms. Dortch:

This is to inform you that, on April 12, 2018, Patricia Cooper, Bryon Hargis, and undersigned counsel on behalf of Space Exploration Technologies Corp. ("SpaceX") met with Commissioner Clyburn, Louis Peraertz, her Senior Legal Advisory for Wireless, International, and Public Safety, and law clerk Pooja Tolani; Umair Javed, Legal Advisor to Commissioner Rosenworcel for Wireless and International; Erin McGrath, Legal Advisor to Commissioner O'Rielly for Wireless, Public Safety, and International; and Rachael Bender, Wireless and International Advisor to Chairman Pai. The primary topic of discussion was the operation of two experimental SpaceX satellites launched on February 22, 2018, including initial results from those test operations. However, we also discussed a topic relevant to the above referenced proceeding: potential policies for ensuring the safety of operations in space. That discussion was consistent with SpaceX's submissions in this proceeding.

Respectfully submitted,

William M. Wiltshire  
*Counsel to SpaceX*
