CC Docket No. 02-6

April 17, 2018

To Whom it may concern,

I am writing to obtain a waiver to the submission date for a form 471 on the USAC electronic filing site for Grant CC School District 110, billed entity number 136417. Grant CCSD 110 is a school district in southern Illinois that serves students in grades Pre-K to 8 at Illini Elementary School and Grant Middle School.

The 471 is requesting network upgrades for our firewall, uninterruptible power supplies, network switches, and wireless access points. The infrastructure that we will be able to upgrade with these funds will enable us to provide a more reliable, robust network for our students at both the elementary and middle school level. The total funding commitment request is \$9,624.80.

Attached is the 471 form that was filed and certified after the close of the FY 2018 filing window. Please feel free to contact me if there are any questions, Brien Bednara, Technology Coordinator, 618-398-5577 x324

Sincerely,

A handwritten signature in black ink, appearing to read "Brien Bednara", with a stylized, cursive script.
