My concern on..

WC Docket Number 18-155

I am concerned about losing conference calling with my unlimited plan.

I live with a 100 yr old lady as her care giver. She can't go out and many a ~~day~~ ^{DATE FILE COPY ORIGINAL} evening are brightened by listening to church services, funeral services of friends, her church youth singing..

I also care for a lady with dementia & she spends lots of time listening to singing. It calms her.

Both these could not afford to do this if needing to pay by the minute.

So please.. reconsider.. for the sake of all the elderly involved..

Could you please refrain from proceeding with the rule making of WC Docket No 18-55?

Thank you..

Sincerely,

Ella H Martin
