Re: 3.5 GHz SAS and ESC Applications (GN Docket No. 15-319)

Dear Ms. Dortch:

On April 26, 2018, representatives of the CBRS Alliance Board of Directors met with Commissioner O’Rielly and his wireless advisor, Erin McGrath, to provide an update on the Alliance’s activities and to discuss the progress towards commercial operation in the CBRS band.

We detailed the Alliance’s continued membership growth, the publication of our baseline Network Services and Coexistence specifications, preparations for the launch of the Alliance’s certification program, our upcoming Annual Meeting, and our members’ activities in anticipation of the band’s authorization for commercial service. We urged for commercial operation in the band as soon as feasible. The attached slides were presented.

CBRS Alliance Board Representatives:

CTIA	Paul Anuszkiewicz, Vice President of Spectrum Planning
Ericsson	Paul Challoner, Vice President of Network Product Solutions
Federated Wireless	Ross Vincenti, Chief Legal Officer
Google	Andrew Clegg, Spectrum Engineering Lead
Intel	Rao Yallapragada, Director of Technology and Market Strategy
Nokia	Chris Stark, Head of Business Development
Ruckus Networks	David Wright, Director of Regulatory Affairs and Network Standards

Sincerely,

A handwritten signature in dark ink, appearing to read "David A. Wright", written in a cursive style.

David A. Wright
