PETITION FOR SPECIAL RELIEF

I. INTRODUCTION AND SUMMARY

Gray Media Group, Inc. (“Gray”), the parent company of the licensee of WCJB-TV, Gainesville, Fla. (Fac. ID 16993), hereby submits this Petition for Special Relief (the “Petition”) to modify the television market of WCJB-TV (the “Station”) to include Columbia County, Florida and Marion County, Florida (the “Counties”) as part of the Station’s local television market with respect to satellite carriage on DIRECTV and DISH Network.¹

Elected officials, advertisers, and Columbia and Marion County residents alike overwhelmingly support the Petition. This is because WCJB-TV, an ABC network affiliate, focuses its coverage on matters of special importance to residents of the Counties and the state of Florida, including “local television programming . . . relevant to their everyday lives.”² Though WCJB-TV has enjoyed long-time cable carriage in the Counties, residents of Marion and

¹ See 47 U.S.C. § 338(l); 47 C.F.R. §§ 76.7, 76.59, and 76.66.

² Report from the Senate Committee on Commerce, Science, and Transportation accompanying S. 2799, 113th Cong., S. Rep. No. 113-322, at 11 (2014).

Columbia Counties who subscribe to DISH or DIRECTV are unable to find any significant coverage of truly local news related to storms, emergencies, sports, elections, business reports, and community events – coverage they would receive were WCJB-TV to be carried.

On that basis, the Counties are “precisely the type of communit[ies] that Congress intended to assist by broadening the market modification process” as part of the STELA Reauthorization Act of 2014 (“STELAR”).³ “[T]he purpose of market modification is to permit adjustments to a particular station’s local television market (which is initially defined by the DMA in which it is located) to better serve the value of localism by ensuring that satellite subscribers receive the broadcast stations most relevant to them.”⁴ Not surprisingly, many residents have submitted comments supporting the modification, and elected representatives from the U.S. Congress, Florida State Senate, Florida House of Representatives, and County and City officials have provided unequivocal support for this modification.⁵

As described more fully herein, the Petition satisfies the statutory test for market modification proceedings, and its grant serves the goals of promoting access to local programming passed by Congress in STELAR. Satellite subscribers in Marion and Columbia Counties should enjoy the same robust local programming as cable subscribers in these areas

³ See *La Plata County, Colorado Petitions for Modification of the Satellite Television Markets of KDVR-TV, KCNC-TV, KMGH-TV, and KUSA-TV, Denver, Colorado*, 32 FCC Rcd 1474, ¶ 19 (M.B. 2017) (“*La Plata County*”).

⁴ *Amendment to the Commission’s Rules Concerning Market Modification*, 30 FCC Rcd 10406, ¶ 17 (2015) (“*STELAR Market Modification Report and Order*”).

⁵ See Exhibit D (Letters to Chairman Pai from Representative Ted Yoho (FL-3), dated Apr. 4, 2019; Florida Senator Dennis Baxley (District 12), dated Mar. 20, 2019; Florida Senator Keith Perry (District 8), dated Mar. 15, 2019; City of Ocala Mayor Kent Guinn, dated Mar. 15, 2019; among many others)

have enjoyed for decades. Therefore, Gray respectfully request that the Commission modify WCJB-TV's local satellite television market without delay.

II. **BACKGROUND**

A. **Congress Intended the STELAR Satellite Market Modification Process to Promote Local Programming for County Residents Like Those in Columbia and Marion**

Columbia and Marion Counties are located north and south of Gainesville, Florida, respectively. Presently, local and county-specific news and coverage provided by WCJB-TV is not available to satellite customers of DISH and DIRECTV in the Counties. In implementing STELAR, the Commission recognized that the “core purpose” of the new authority is increasing access to local programming.⁶ With the passage of STELAR, Congress also added a new statutory factor designed to enhance local programming access. It “permits the Commission to add communities to . . . a station’s local television market” in order “to better reflect market realities” and “to promote carriage of in-state and other relevant local television programming.”⁷

In ruling on requests for satellite market modifications, the FCC “must afford particular attention to the value of localism” in accounting for the five factors presented in Section 338(l):⁸

- (1) whether the station, or other stations located in the same area—(a) have been historically carried on the cable system or systems within such community; and (b) have been historically carried on the satellite carrier or carriers serving such community;
- (2) whether the television station provides coverage or other local service to such community;
- (3) whether modifying the local market of the television station would promote consumers’ access to television broadcast station signals that originate in their State of residence;
- (4) whether any other television station that is eligible to be carried by a satellite carrier in such community in fulfillment of the requirements of this section provides news

⁶ See *STELAR Market Modification Report and Order*, ¶ 12.

⁷ *Id.*, ¶¶ 1, 7.

⁸ *Id.*, ¶¶ 8, 18.

- coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community; and
- (5) evidence of viewing patterns in households that subscribe and do not subscribe to the services offered by multichannel video programming distributors within the areas served by such multichannel video programming distributors in such community.⁹

The Petition provides substantial evidence that WCJB-TV will increase access to local programming for the satellite subscribers in the Counties – access that cable subscribers have enjoyed for decades. The Petition meets the statutory test for market modification under STELAR and should be granted promptly.

III. WCJB-TV MEETS THE STATUTORY TEST FOR MARKET MODIFICATION

A. Carriage of WCJB-TV is Technically and Economically Feasible for DIRECTV and DISH Network

As a threshold matter, the Commission “will not grant a market modification petition if the resulting carriage would be infeasible.”¹⁰ Gray submits as Exhibits A and B Feasibility Certifications from satellite carriers DISH Network and DIRECTV demonstrating that carriage of WCJB-TV is feasible.

Gray also notes that DIRECTV’s statement that “WCJB currently would qualify under the ‘duplicating signals’ exception to DBS providers’ broadcast carriage obligations in Columbia and Marion Counties” misreads the Communications Act.¹¹ Section 338 states that DIRECTV

“shall not be required to carry upon request the signal of any local commercial television broadcast station that substantially duplicates the signal of another local commercial television broadcast station which is secondarily transmitted by the satellite carrier within the **same local market**, or to carry upon request the signals of more than one local commercial television broadcast station **in a single local market** that is affiliated with a particular

⁹ 47 U.S.C. § 338(l)(2)(B)(i)-(v).

¹⁰ *La Plata County*, ¶ 11.

¹¹ Exhibit A, at 2.

television network unless such stations are licensed to communities in different States.”¹²

Section 338 defines “local market” the same as 17 U.S.C. 122(j), which in turn defines it to include “the designated market area in which the station is located,” “the county in which the station’s community of license is located,” and any market modifications under Section 338.¹³ Thus, were this Petition granted, WCJB-TV’s local market would be the Gainesville designated market area (“DMA”) plus Marion and Columbia Counties. There are no other ABC affiliates in that local market, and thus there would be no duplicating signals. Meanwhile, the “local market” for WFTV(TV), the ABC affiliate in Orlando, is the Orlando-Daytona Beach-Melbourne DMA, and the “local market” for WJXX(TV), the ABC affiliate in Jacksonville, Florida, is the Jacksonville-Brunswick DMA. All three stations serve different local markets – even if there may be some small overlaps.

Holding otherwise as DIRECTV implies would contravene the clear intent of Congress and the Commission in implementing STELAR. As the FCC explained, a “[m]arket modification provides a means to avoid rigid adherence to DMA designations and to promote consumer access to in-state and other relevant television programming.”¹⁴ Therefore, “[t]o better reflect market realities and effectuate these purposes, Section 338(l) . . . permits the Commission to add communities to, or delete communities from, a station’s local television market following a written request.”¹⁵

¹² 47 U.S.C. § 338(c)(1) (emphasis added).

¹³ 47 U.S.C. § 338(k)(4); 17 U.S.C. § 122(j).

¹⁴ *STELAR Market Modification Report and Order*, ¶ 7.

¹⁵ *Id.*

DIRECTV's interpretation of "duplicate signals" would moot the results of any market modification process involving a network affiliated station and two DMAs in the same state. In other words, DIRECTV would argue that WCJB-TV (and every other network-affiliated station in the state of Florida) is statutorily prohibited from seeking a market modification adding any county that is in a Florida-based DMA. This would render the satellite market modifications as applicable only for independent, non-affiliated stations or so-called "orphan counties." The Commission, however, already has rejected that cramped reading of the statute¹⁶ and has issued market modification orders that directly contradict DIRECTV's interpretation.¹⁷ Instead, the Commission determined that Congress intended to promote access to in-state stations "regardless of whether there are other in-state stations in the new community."¹⁸ It would make little sense for Congress to promote access to in-state stations in Section 338(l)(2)(B)(iii) of the Communications Act, yet at the same time prevent such carriage in Section 338(c)(1). Plainly, this is not what Congress intended, and the Commission should strike down DIRECTV's argument accordingly.

B. Factor 2: WCJB-TV Provides Extensive Local Programming to the Counties

WCJB-TV serves residents of the Counties with a wide range of local news, sports, weather, and other important informational programming. The Commission expressly notes that "[i]n determining the extent of local service provided by the Stations, we [] consider the support

¹⁶ *STELAR Market Modification Report and Order*, ¶ 18 n.83 (rejecting the requirement that a petitioner must show a complete lack of in-state programming in a community to satisfy the in-state-programming factor in Section 338(l)(2)(B)(iii)).

¹⁷ *See Gray Television Licensee, LLC, for Modification of Satellite Television Market for WSAW-TV, Wausau, Wisconsin*, 32 FCC Rcd 668 (2017) ("WSAW") (granting a market modification for CBS affiliate WSAW-TV, Wausau, Wisconsin, even though WSAW-TV is licensed to the same state as the in-DMA CBS affiliate KBJR-TV, Superior, Wisconsin).

¹⁸ *Id.*, ¶ 18

for the modifications from local residents and their official representatives. As the STELAR *Market Modification Report and Order* made clear, such comments are enormously helpful in demonstrating a nexus between the stations and the local community.”¹⁹ In addition, in establishing “local service” the Commission may look at such factors as “the presence of a high quality over-the-air signal; shopping and labor connections between the local community and the station’s community of license; support by the local community for service from the station; and programming, including news or sports coverage, specifically about or addressing the community.”²⁰ In all respects, the Station excels in serving the Counties.

As the Commission has acknowledged, WCJB-TV has a longstanding commitment to localism in both Columbia and Marion Counties. In granting the Station’s 1995 cable carriage market modification petition to add communities in Marion County, the FCC held that WCJB-TV “provides coverage of local Marion County news and weather, and that its presence in the community extends beyond its various broadcasts because it sponsors community events and station personnel are actively involved in those events.”²¹ Similarly, in granting the Station’s petition to add Columbia County three years later, the agency held that WCJB-TV “takes an interest in and provides coverage of events, weather and local affairs relevant to” Columbia

¹⁹ *In the Matter of Stephens County, GA, Petitions for Modification of the Satellite Television Markets of WSB-TV, WGCL, WAGA, and WXIA-TV, Atlanta, GA*, Memorandum Opinion and Order, DA 19-256, Docket Nos. 18-358, 18-359, 18-360, 18-361, ¶ 22 (rel. Apr. 4, 2019) (“*Stephens County*”).

²⁰ *Id.*, ¶ 20.

County, which “clearly indicates that there is a specific market connection between WCJB and the communities at issue.”²²

This commitment continues today. The Station broadcasts more than four hours of local news programming each weekday with a Florida and County specific focus. WCJB-TV airs local news weekdays from 5:00-7:00 am, 12:00-12:30 pm, 5:00-6:30 pm, and 11:00-11:35 pm. On weekends, the Station airs local newscasts from 6:00-6:30 pm and 11:00-11:30 pm. Currently, Columbia County satellite subscribers receive news and local information centered on Jacksonville, while Marion County satellite subscribers receive news and local information from Orlando. With local outlets focused on these major metropolitan areas, residents of the Counties have limited access to the news, sports, weather, and politics most relevant to them.

WCJB-TV is the only local news station with a bureau in Marion County, with a dedicated Marion County reporter assigned to that bureau. The Orlando stations currently available to satellite customers, only come to Marion County in the event of breaking news, missing out on important stories and coverage that the Station provides. Meanwhile, in Columbia County, the Station has a partnership with Florida Gateway College in Lake City that provides news content, and eventually will be developed into a live-enabled bureau. This partnership is expanding and will add to the Station’s Columbia County coverage which is already superior in quality and quantity to what the Jacksonville stations provide to satellite customers. Much like the Orlando stations in Marion, Jacksonville stations appear to only come to Columbia County in the event of breaking news. WCJB-TV is excited to further expand its coverage in both Counties should this market modification be granted, and it has initiated

²² *Diversified Commc'ns Gainesville, Fla.*, Petition for Special Relief for Modification of the Gainesville, Florida ADI, 13 FCC Rcd 22331, ¶ 24 (1998) (“*Columbia County Market Mod*”).

conversations with potential new hires to build upon the depth and quality of the local coverage already offered.

As evidenced by the strong support for this modification from elected representatives and law enforcement officials, satellite television customers do not have access to all of the most relevant local political, election, weather, and public safety news for their districts.²³ Marion County is part of Florida's 3rd Congressional District, and the State Senate's 8th District and 12th Districts. U.S. Congressman Ted Yoho (FL-3) states that "[a]dding WCJB to the satellite companies will allow Marion residents to view live local community news, weather, sports, and emergency information...WCJB is the only broadcast station with a full-service news bureau in Marion County. Unfortunately, satellite viewers living in [the county] cannot receive vital local news and weather updates, and they are forced to rely on these updates from Orlando sources until the WCJB petition is granted."²⁴ Columbia County Sheriff Mark Hunter notes that "WCJB routinely partners with [the] Sheriff's Office to relay information to our citizens regarding local law enforcement activities and public safety news."²⁵

Exhibit C conclusively demonstrates that WCJB-TV dedicates itself to providing viewers with the highest quality local news and entertainment services and in-depth coverage pertinent to the residents of the Counties. For instance, the Station covers state and local politics, such as a County Commissioner not seeking re-election after a State Ethics probe; Columbia County leaders from businesses, government, and academia meeting to develop an economic growth

²³ See Exhibit D.

plan; school board election results; law enforcement and crime news; and local weather and traffic updates.²⁶

Florida Gateway College in Columbia County and the College of Central Florida in Marion County each drive important community and research developments of interest to residents in the Counties. WCJB-TV provides extensive coverage of the colleges, but also events important to younger students and their parents. Illustrative stories include: news about a \$860,000 state grant to enhance and develop programs at Florida Gateway; an event at the College of Central Florida meant to inspire middle school student interest in the science, technology, engineering, and math (“STEM”) fields; Florida Gateway College and its president’s request to state lawmakers for a new STEM building on campus; and innovative medical training equipment allowing students to perform surgical procedures on 3D digital bodies; among many others.²⁷

The Station also provides extensive coverage on news coming out of the Counties. In January, WCJB-TV covered a Lake City Hall meeting (in Columbia County) to discuss the city's funding issues and the need to enhance the compatibility of the county’s newly upgraded emergency radio system.²⁸ In March, WCJB-TV provided local residents with information about the activation of a cold weather shelter at a local church.²⁹ Other county-specific stories include human interest pieces, such as a Lake City man designing a speed boat with underwater submarine capabilities; a Columbia County high school graduate playing in the 2018 Super

²⁶ See Exhibit C, at 1-4.

²⁷ *Id.*

²⁸ *Id.* at 1.

²⁹ *Id.*

Bowl; a corrections officers recovering from a kidney transplant; and coverage of local deaths and accidents.³⁰

In addition, dozens of local businesses³¹ and consumer comments³² provided in Exhibits E and F support the proposed market modification. The Commission has held that such comments “can help demonstrate a station’s nexus to the community at issue.”³³ Here, the nexus is clear.

The Commission has held that shopping and labor patterns can help establish local service and weigh in favor of market modification decisions.³⁴ The record submitted here, displays that businesses want to reach community residents, but they cannot effectively communicate with satellite subscribers as they do cable subscribers. For instance, a car dealer advertises on the Station which is “proof positive that WCJB is our local station [and asks the Commission to give satellite viewers] the same opportunity as cable subscribers to view the station.”³⁵ Another resident and satellite customer, Glenn McCorvy, was “amazed at not having the local news and reporting from Gainesville stations [and] wondered why dealerships in another market advertise in our area.”³⁶ In terms of labor and commuter flows, there is a strong connection between the Counties and the Station. The U.S. Census Bureau’s commuting patterns show that more than 3,000 Columbia County and 2,800 Marion County residents commute to

³⁰ *Id.* at 1-2.

³¹ *See* Exhibit E, pages 1-56.

³² *See* Exhibit F, pages 1-303.

³⁵ *See* Exhibit E, pages 1-56.

³⁶ Exhibit F, page 143.

Alachua County, where WCJB-TV is located, and more than 2,100 Alachua County residents commute to Columbia and Marion Counties combined.³⁷

County residents overwhelmingly support the market modification. Liz Beyer states that she “can’t imagine not being able to watch [WCJB’s local news channel TV20’s] daily newscasts[.]”³⁸ Jerry Jacobs writes “[My satellite television provider] told me I would get local news, [but] when I found out that Daytona and Orlando were what they considered local[,] I was pretty upset but couldn’t do anything about it.”³⁹ Robert Hughes succinctly stated that WCJB-TV “has done a superb job adding to the feel of valuable local community news and reporting. Please keep their broadcasts accessible, they provide a necessary service to our local and regional residents, from stories on issues, crime, happenings at our local colleges and high schools, [and] sports.”⁴⁰ These comments, and many others, show the importance of local programming to residents in the Counties.

The Commission has made clear that evidence of geographic proximity is not determinative, but can be an “enhancement” if provided, in market modification proceedings. With that in mind, Exhibit G shows that the noise-limited service contour maps of WCJB-TV covers nearly all of Marion County and the majority of Columbia County, including its largest and most populous city, Lake City.⁴¹ Additionally, Exhibit G demonstrates that WCJB-TV’s

³⁷ See U.S. Census Bureau, *Residence County to Workplace County Flows for Florida*, available at <https://www.census.gov/data/tables/2010/demo/metro-micro/commuting-employment-2010.html>.

³⁸ *Id.* at page 91.

³⁹ *Id.* at page 41.

⁴⁰ *Id.* at page 107.

⁴¹ Gray seeks waiver of the requirement to include the location of cable headends as part of Exhibit G. See 47 C.F.R. § 1.3. The Commission “may waive the requirement to submit certain evidence for good cause shown, particularly if it is in a position to resolve the petition without such evidence.” *Stephens County*, ¶ 10. Here, the Petition concerns modification of WCJB-

community of license is about a 45-minute drive from Lake City in Columbia County and less than 30 minutes to Ocala, the county seat of Marion.

The Station's provision of a multitude of "local" programming — "programming originating from and about" Florida and Marion and Columbia Counties — the myriad consumer and government official comments supporting WCJB-TV, shopping and labor patterns, and the geographic proximity enhancement factors all weigh heavily in favor of the petition.⁴²

C. Factor 3: Adding the Counties to WCJB-TV's Local Market Will Increase Access to In-State Stations

As set forth above, WCJB-TV is licensed to Gainesville, Florida, located directly between Columbia and Marion Counties. According to the Commission, "a petitioner will be afforded credit for satisfying this factor simply by showing that the involved station is licensed to a community within the same state as the new community."⁴³ For that reason, the petition satisfies this factor.

In addition, the factor "weighs more heavily in favor of modification if the petitioner shows that the involved station provides programming specifically related to subscribers' state of residence."⁴⁴ As provided in the section above, WCJB provides programming for and about

TV's market for satellite carriage, not cable carriage. Moreover, information concerning cable headend location is no longer readily available. *See Revisions to Public Inspection File Requirements – Broadcast Correspondence File and Cable Principal Headend Location*, Report and Order, 32 FCC Rcd 1565 (2017) (eliminating requirement that cable operators maintain designation and location of principal headends in their public file). Therefore, good cause exists to waive this requirement.

⁴² Report from the Senate Committee on Commerce, Science, and Transportation accompanying S. 2799, 113th Cong., S. Rep. No. 113-322, at 15 (2014).

⁴³ *STELAR Market Modification Report and Order*, ¶ 18.

⁴⁴ WSAW-TV, ¶ 31.

Floridians and residents of the Counties. Therefore, this factor weighs heavily in favor of the petition.

D. Factor 1: Historic Carriage of WCJB Enhances the Weight in Favor of the Petition

If a petition provides evidence of historic carriage of a station, it serves “as an enhancement factor.”⁴⁵ Here, decades-long carriage of WCJB-TV by cable systems in the Counties provides substantial enhancement to the instant petition – a clear “indication that residents have an interest in receiving WCJB’s signal.”⁴⁶ In granting the 1995 WCJB-TV Marion County cable market modification, the Commission acknowledged the Station had been carried there since at least 1993.⁴⁷ Similarly, in 1998, the FCC noted “a history of long-term carriage” in Columbia County.⁴⁸

As shown in Exhibit H, this carriage on Marion and Columbia County cable systems continues today. So too here as with the previously discussed factors, the historic carriage factor weighs heavily in favor of granting the Petition.

E. Factor 4: Other Local Stations

The Counties receive limited local programming from stations in their current DMA—current programming is simply less relevant to County residents. For instance, Laurie Terry, on behalf of her aunt and uncle, writes that “they both would prefer receiving [WCJB-TV’s] TV20 News as they do a tremendous amount of business in Gainesville and the surrounding areas [but] their only source of news is from [the] Tampa/Orlando areas.”⁴⁹

⁴⁵ WSAW-TV, ¶ 28.

⁴⁶ *Columbia County Market Mod*, ¶ 22.

⁴⁷ *Marion County Market Mod*, ¶ 13.

⁴⁸ *Columbia County Market Mod*, ¶ 22.

⁴⁹ *Exhibit F*, page 21.

That said, even assuming *arguendo* that those stations did provide some local programming, “this factor neither weighs against nor in favor of [the] modification request.”⁵⁰

F. Factor 5: Viewing Patterns

The Commission last considered WCJB-TV’s viewership in the Counties in connection with its decision to modify WCJB-TV’s market for cable carriage to include various communities in the Counties. In those decisions, the Commission found that WCJB-TV “has a substantial viewing audience in Marion County” and “substantial viewing figures” in Columbia County.⁵¹ Current information regarding viewership of WCJB-TV in the Counties, however, is not available. Gray subscribes to Comscore for its ratings information. Comscore’s methodology for calculating ratings, however, relies heavily on data received from DISH Network and DIRECTV. As a result, Comscore cannot provide ratings data for a station if it is not carried on satellite. Therefore, Comscore cannot provide any ratings data for WCJB-TV in either County because it is not carried on satellite in either County. Ratings information from Nielsen also is not an option because Gray does not subscribe to Nielsen.⁵² When a station does not subscribe to Nielsen, the Commission will consider other indicia of viewership in the

⁵⁰ *Petition for Modification of the Dayton, OH Designated Market Area with respect to Television Station WHIO-TV*, Dayton, OH, 28 FCC Rcd 16011, 16019 (MB 2013).

⁵¹ *Marion County Market Mod*, ¶ 14; *Columbia County Market Mod*, ¶ 23.

⁵² Even if Gray were a Nielsen subscriber, at most it would only be able to provide data for just the last few months. Gray did not insert the Nielsen watermark in WCJB-TV’s signal until summer 2018 because the Gainesville DMA was a Nielsen Diary Market. Meanwhile, the Orlando-Dayton Beach-Melbourne DMA and Jacksonville DMAs use People Meters and Set Meters, respectively, to gather ratings data. Thus, prior to the 2018, ratings data for WCJB-TV in Marion and Columbia Counties would not be available from Nielsen. *See Monongalia County, West Virginia and Preston County, West Virginia Petitions for Modification of the Satellite Television Markets of WDTV, Weston, West Virginia, and WBOY-TV and WVFX, Clarksburg, West Virginia*, 33 FCC Rcd 1168, ¶ 42 (2018) (describing the challenge of stations in Nielsen Diary Markets to obtain ratings data and stating that the Commission will not penalize a petitioner for failing to provide ratings data).

relevant communities.⁵³ Here, the substantial support of community leaders, advertisers, and viewers in the Counties is sufficient evidence that the Station continues to have strong viewership in the Counties.

Regardless, Gray respectfully requests that the Commission waive the requirement that it provide ratings information with respect to the Counties. The Commission “may waive the requirement to submit certain evidence for good cause shown, particularly if it is in a position to resolve the petition without such evidence,”⁵⁴ and the FCC has, in prior decisions, waived such a requirement when there is “ample evidence to render our decision without” such data.⁵⁵ As demonstrated in this petition, Gray provides ample evidence that weighs heavily in favor of granting the Petition on the other critical factors.

⁵³ *Victory Television Network, Inc. for Modification of the Satellite Television Market for KVTJ-DT, Jonesboro, Arkansas*, 32 FCC Rcd 7389, ¶ 25 (2017).

⁵⁴ *Stephens County* at ¶ 10; *Tobacco Valley Communications*, 31 FCC Rcd 8972, 8976 n.22 (MB 2016); 47 CFR § 1.3.

⁵⁵ *See Stephens County* ¶ 14.

IV. CONCLUSION

Congress sought to promote carriage of in-state and other relevant local television programming for counties like Columbia and Marion when it passed the satellite market modification provision in STELAR. The Petition sets forth substantial evidence demonstrating a strong nexus between the Station and the Counties. Therefore, the Commission should grant the request for market modification and order the addition of the Counties to the local market of WCJB-TV on both DIRECTV and DISH Network.

Dear Mr. Folliard:

Please find attached the results of your request for a preliminary evaluation of a potential market modification for **WCJB**.

DIRECTV's engineering staff was given the areas to evaluate for station **WCJB** on our **Gainesville, FL** spot beam, and have found that:

- DIRECTV's HD spot beam does not cover **2** current zip codes in **Columbia County**
- DIRECTV's HD spot beam does not cover **4** current zip codes in **Marion County**

Please see attached for specific spot beam zip code coverage information.

Please note that WCJB currently would qualify under the "duplicating signals" exception to DBS providers' broadcast carriage obligations in Columbia and Marion Counties.¹ Further, DIRECTV notes that the Gainesville, FL DMA, the home DMA for WCJB, has only an HD spot beam for local channels, and customers must have HD equipment in order to receive local stations. As a result, in the event DIRECTV were to carry WCJB in Marion and Columbia Counties, only customers with HD equipment would be able to receive WCJB. Customers with SD equipment would need to obtain HD equipment in order to receive WCJB.

DIRECTV will forward the results of this preliminary evaluation to the FCC for its records. Thank you for your letter and your interest in DIRECTV programming.

Sincerely,

DIRECTV

¹ See 47 U.S.C. § 338(c)(1); 47 C.F.R. § 76.66(h); *Amendment to the Commission's Rules Concerning Market Modification; Implementation of Section 102 of the STELA Reauthorization Act of 2014*, Report and Order, 30 FCC Rcd 10406 ¶ 28 n.146 (confirming that the "duplicating signals" exception continues to apply "to stations in communities that have been added to their markets via the market modification process"); see also *Gray Television Licensee, LLC, for Modification of the Television Market for WYMT-TV, Hazard, Kentucky*, Memorandum Opinion and Order, MB Docket No. 18-8, DA 18-500, ¶¶ 21-22 (MB rel. May 16, 2018).

Form of Certification Regarding Spot Beam Coverage

1. My name is Constance Goshgarian. I am VP Systems Engineering and Architecture at DIRECTV. As such, I am responsible for determining service areas for television stations carried on DIRECTV's spot beams.
2. DIRECTV has reviewed the request to add the communities listed below to the local television market for the station indicated.

Station	State	County
WCJB	FL	COLUMBIA

3. DIRECTV has analyzed, with respect to each zip code associated with this request, the expected performance against specific performance criteria. The following factors have been included in this analysis:
 - a. The measured performance of the spot beam covering this Television Station's local market.
 - b. Estimated atmospheric effects for reception of the signal.
 - c. Estimated levels of interference.
 - d. The amount of capacity currently used, and reasonably expected to be used, on the spot beam.
 - e. The target availability figure used for all television stations offered on the spot beam.
4. From this analysis, DIRECTV has derived the following metrics, which it has used to evaluate the potential to provide service in the zip code(s) in question:
 - a. Signal availability.
 - b. Clear sky signal margin.
 - c. Total carrier-to- interference ratio.
5. DIRECTV has conducted this analysis in substantially the same manner and using substantially the same parameters used to determine the geographic area in which it currently offers stations carried on the spot beam.
6. Based on this analysis, DIRECTV:
 - ☐ Can provide service to all the zip codes associated with this request.
 - ☐ Cannot provide service to any of the zip codes associated with this request because reception of the signal does not meet the minimum performance thresholds for DIRECTV's service.
 - ☒ Cannot provide service to some of the zip codes associated with this request because reception of the signal does not meet the minimum performance thresholds for DIRECTV's service. The list of unserved zip codes is attached.

I declare under penalty of perjury that the foregoing is true and correct.

*Re: STELAR Feasibility Certification, Market Modification Pre-Filing Coordination Letter
for WCJB-TV, MB Docket No. 15-71*

Dear Mr. Folliard:

DISH Network L.L.C. (“DISH”) is in receipt of your pre-filing coordination letter (“Letter”),¹ pursuant to the procedures set forth in the Federal Communications Commission’s (“FCC”) rules governing market modifications for satellite carriers under the STELA Reauthorization Act of 2014 (“STELAR”).²

The Letter requests information regarding carriage of WCJB-TV, Gainesville, Florida into Columbia County, Florida and Marion County, Florida. The attached Feasibility Certification pursuant to 47 C.F.R § 76.59(e) reflects DISH’s response to the Letter.

Please contact the undersigned if you have any questions.

¹ Letter from Robert Folliard, III, Vice President & Deputy General Counsel, to DISH Network Programming Department, September 6, 2018.

² See Amendment to the Commission’s Rules Concerning Market Modification, Implementation of Section 102 of the STELA Reauthorization Act of 2014, *Report and Order*, MB Docket No. 15-71, FCC 15-111, ¶ 47 (Sept. 2, 2015) (“*Market Modification Order*”). See also STELA Reauthorization Act of 2014 (STELAR), § 102, Pub. L. No. 113-200, 128 Stat. 2059, 2060-62 (2014) (codified at 47 U.S.C. § 338(l)).

Sincerely,

/s/ Jeffrey H. Blum

Jeffrey H. Blum
Senior Vice President and Deputy General
Counsel
DISH Network L.L.C.

Attachment: Feasibility Certification Pursuant to 47 C.F.R. § 76.59(e)

FEASIBILITY CERTIFICATION PURSUANT TO 47 C.F.R § 76.59(e)

1. This Feasibility Certification is issued by DISH Network L.L.C. (“DISH”) pursuant to the pre-filing coordination procedures contained in the Federal Communications Commission’s (“FCC”) Order¹ governing market modifications for satellite carriers under the STELA Reauthorization Act of 2014 (“STELAR”).²
2. This Feasibility Certification responds to the letter (“Letter”) dated September 6, 2018 from Robert J. Folliard, III, Vice President & Deputy General Counsel, Gray Television, Inc., requesting information regarding carriage of WCJB-TV, Gainesville, Florida into Columbia County, Florida and Marion County, Florida (together, the “Counties”).
3. DISH carries WCJB-TV on spot beams located on three different satellites: from the 110° W.L. orbital slot (in standard definition or “SD”), and from the 61.5° and 129° W.L. orbital slots (in high definition or “HD”). The 110° and 129° orbital slots are both in the “Western Arc.” The 61.5° W.L. orbital slot is in the “Eastern Arc.”
4. The ability of an individual DISH subscriber in both Counties to receive WCJB-TV depends on, among other things, how the subscriber’s individual satellite antenna was originally installed and pointed, and whether that subscriber is predicted to have adequate spot beam coverage from one of our three satellites that carries WCJB-TV.
5. In general, a DISH customer’s satellite antenna, when installed, is pointed so that it can receive satellite signals from specific orbital slots. Receiving service from orbital slots not planned for in the original equipment installation at the subscriber’s home typically would require DISH to send a truck and technician to adjust equipment or install different equipment, which would impose a very substantial cost burden on DISH.
6. For DISH subscribers in both Counties, DISH has first determined whether the particular spot beam on each of our three satellites that carry WCJB-TV provides adequate spot beam coverage. In determining whether a given spot beam covers each of the Counties, DISH evaluates whether the spot beam’s signal, as designed by the satellite manufacturer, is predicted to achieve reception and demodulation of the signals at the same availability levels that DISH ordinarily uses to assess spot beam coverage for the local markets to which DISH provides service. To that end, DISH has “conducted this analysis in substantially the same manner and using substantially the same parameters used to determine the geographic area in which it currently offers stations carried on the spot beam.”³ The calculation methodology takes into account the following principal parameters: (i) the uplink and downlink portions of the end-to-end satellite signal, (ii)

¹ Amendment to the Commission’s Rules Concerning Market Modification, Implementation of Section 102 of the STELA Reauthorization Act of 2014, Report and Order, MB Docket No. 15-71, FCC 15-111, ¶ 47 (Sept. 2, 2015) (“*Market Modification Order*”).

² STELA Reauthorization Act of 2014 (STELAR), § 102, Pub. L. No. 113-200, 128 Stat. 2059, 2060-62 (2014) (codified at 47 U.S.C. § 338(l)).

³ *Market Modification Order* ¶ 41.

rain loss using the International Telecommunication Union (“ITU”) 618.6 rain rate data and ITU rain region boundaries, (iii) atmospheric loss, (iv) carrier to interference ratio (“C/I”) terms due to adjacent satellite interference, (v) C/I terms due to aggregate adjacent beam interference, (vi) cross polarization degradation, (vii) forward error correction, and (viii) modulation.

7. **Marion County:** Under the method described above, the spot beam at the 110° W.L. orbital slot that transmits WCJB-TV in SD and the spot beam at the 129° W.L. orbital slot that transmits WCJB-TV in HD (the “Western Arc” orbital slots) are predicted to provide adequate coverage to Marion County. The spot beam at the 61.5° W.L. orbital slot that transmits WCJB-TV in HD (the “Eastern Arc” orbital slot) is predicted to provide coverage to most of the Marion County area, but may not cover the northernmost 15 percent of the county area.
8. Most DISH subscribers in Marion County have a satellite dish that is pointed to receive from satellites located in the Eastern Arc, with the remaining subscribers pointed to receive from Western Arc satellites. DISH subscribers pointed to receive from the Western Arc satellites could receive WCJB-TV (in both SD and HD). DISH subscribers pointed to receive from the Eastern Arc satellites could receive WCJB-TV (in only HD) if they are not located in the northernmost 15 percent of Marion County. Some DISH subscribers pointed to receive from the Eastern Arc satellites that are located in the northernmost 15 percent of Marion County may receive WCJB-TV (in only HD), but some may not receive WCJB-TV at all. Requiring DISH to send a truck and technician to adjust equipment or install different equipment for the majority of Marion County subscribers that cannot receive WCJB-TV in SD or cannot receive WCJB-TV at all would impose a very substantial cost burden on DISH.
9. In addition, providing WCJB-TV into Marion County would create a complex patchwork of different customer scenarios. DISH would need to parse its subscribers in Marion County into different groups depending on whether they receive service calls and equipment changes to enable them to receive WCJB-TV. DISH would need to make, among other things, operational and billing changes in an attempt to manage these different cases. Customer confusion and frustration would ensue. For example, one DISH subscriber might be able to receive WCJB-TV while her neighbor could not, or could not receive WCJB-TV in SD. This, in turn, could lead to a poor customer service experience and a burden on DISH if a subscriber requested to have a technician sent to install equipment at DISH’s expense in order to receive service from a different orbital location.
10. As a result, DISH has determined that it would be both “technically infeasible” and “economically infeasible” pursuant to 47 C.F.R. § 76.59(e) for DISH to provide WCJB-TV to subscribers located in the northernmost 15 percent of Marion County who cannot receive either the HD or SD versions of WCJB-TV with their current equipment. In addition, it would be, at least, “economically infeasible” pursuant to 47 C.F.R. § 76.59(e) for DISH to accommodate customer requests for service visits and equipment upgrades

for subscribers desiring to receive WCJB-TV in SD when they could otherwise receive only WCJB-TV in HD.

11. **Columbia County:** The spot beam at the 110° W.L. orbital slot that transmits WCJB-TV in SD is predicted to provide adequate coverage to Columbia County. The spot beam at the 129° orbital slot that transmits WCJB-TV in HD does not cover Columbia County at all. The spot beam at the 61.5° W.L. orbital slot that transmits WCJB-TV in HD is predicted to provide coverage to most of the Columbia County area, but may not cover subscribers in 15 percent of the county area.
12. The substantial majority of DISH subscribers in Columbia County have a satellite dish that is pointed to receive from satellites located in the Eastern Arc, with the remaining subscribers pointed to receive from Western Arc satellites. DISH subscribers pointed to receive from the Western Arc satellites could receive WCJB-TV (in only SD). In 85 percent of Columbia County, DISH subscribers pointed to receive from the Eastern Arc satellites could receive WCJB-TV (in only HD). In 15 percent of Columbia County, some DISH subscribers pointed to receive from the Eastern Arc satellites may receive WCJB-TV (in only HD), but some may not receive WCJB-TV at all. Requiring DISH to send a truck and technician to adjust equipment or install different equipment for the Columbia County subscribers that cannot receive WCJB-TV at all or cannot receive WCJB-TV in both SD and HD would impose a very substantial cost burden on DISH.
13. As a result, and for the reasons discussed above in connection with Marion County, DISH has determined that it would be both "technically infeasible" and "economically infeasible" pursuant to 47 C.F.R. § 76.59(e) for DISH to provide WCJB-TV to some subscribers located in 15 percent of Columbia County who cannot receive either the HD or SD versions of WCJB-TV with their current equipment. In addition, it would be, at least, "economically infeasible" pursuant to 47 C.F.R. § 76.59(e) for DISH to accommodate customer requests for service visits and equipment upgrades for subscribers desiring to receive WCJB-TV in HD when they could otherwise receive only WCJB-TV in SD, or to also receive WCJB-TV in SD when they could otherwise receive only WCJB-TV in HD.
14. DISH reserves the right to amend this Feasibility Certification at any time due to, among other things, a satellite equipment failure or a different satellite or satellites being brought into service for the area that includes the Counties which has different coverage capabilities than the satellites currently being used.

The foregoing has been prepared using facts of which I have personal knowledge or upon information provided to me. I certify under penalty of perjury that the foregoing is true and correct to the best of my current knowledge, information, and belief.

The Honorable Ajit Pai
Chairman, Federal Communications Commission
445 12th Street SW
Washington, DC 20536

Dear Chairman Pai,

I would like to extend my support for of WCJB TV20's market modification petition to allow local broadcasts from this station to Marion County.

WCJB is a local station that reaches Marion County via cable and over the air antenna. I ask that satellite viewers be given the same opportunity as cable subscribers to access important information provided by our local station. Adding WCJB to the satellite companies will allow Marion County residents to view Live Local community news, weather, sports and Emergency information which is already being reported on by WCJB daily. WCJB is the only broadcast station with a full-service news bureau in Marion County. Unfortunately, satellite viewers living in Marion County cannot receive vital local news and weather updates, and they are forced to rely on these updates from Orlando sources until the WCJB petition is granted.

For these reasons, I ask the Federal Communications Commission work with the parties to grant these petitions. If you have any questions or concerns, please feel free to reach out my Deputy Chief of Staff, Kat Cammack, at (352) 505-0838 or via email at Kat.Cammack@mail.house.gov. Thank you for your full consideration.

Sincerely,

Ted S. Yoho, DVM

Dear Chairman Pai:

As a Florida State Representative serving Dixie, Gilchrist, and part of Alachua counties in North Central Florida, I write to offer my support of WCJB TV20's market modification petition to allow local broadcasts from this station to Marion County.

WCJB is a local station that reaches Marion County in North Central Florida via cable and over the air antenna. I ask that satellite viewers be given the same opportunity as cable subscribers to view this local station. The public utilizing satellite service will be better served by allowing access to local matters of importance to their families, businesses, and lives. Adding WCJB to the satellite companies will allow Marion County residents to access live local community news, weather, sports and emergency information.

For these reasons, I ask that the Federal Communications Commission work with the parties to grant these petitions. Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Chuck Clemons".

Washington, DC 20536

Dear Chairman Pai:

As Sheriff of Columbia County Florida, I write to offer my support of WCJB TV20s market modification petition to allow local broadcasts from this station to our county.

WCJB is our local station that reaches Columbia County via cable and antenna. I ask that our satellite viewers be afforded the same opportunity as the cable subscribers to view WCJB. Adding WCJB to the satellite companies will allow Columbia County residents to access a vital source of local community news, weather, and emergency information. WCJB routinely partners with the Columbia County Sheriff's Office to relay information to our citizens regarding local law enforcement activities and public safety news.

For these reasons, I ask that the Federal Communications Commission grant these petitions. Thank you for your consideration in this matter.

Sincerely,

A handwritten signature in cursive script that reads "Mark Hunter".

Mark Hunter
Sheriff of Columbia County

OCALA POLICE DEPARTMENT

April 3, 2019

The Honorable Ajit Pai
Chairman, Federal Communications Commission
445 12th Street SW
Washington, D.C. 20536

Dear Chairman Pai:

I am the Chief of the Ocala Police Department in Marion County, Florida. I am writing in support of WCJB TV20's petition to be carried on DirecTV and Dish within our county.

Currently, satellite viewers in our county receive their news from Orlando. WCJB TV20 is a local station that covers local news, sports, and weather and provides vital emergency information which is pertinent to our residents. The Ocala Police Department has a very good working relationship with WCJB TV 20, which provides our residents with details of our law enforcement activities.

It is for these reasons I am asking that the FCC work with WCJB TV 20 to grant their petition.

Thank you in advance for your consideration.

Sincerely,

A handwritten signature in dark ink, appearing to be "GG" followed by a stylized flourish.

Greg Graham
Chief of Police
Ocala Police Department

The Honorable Ajit Pai
Chairman, Federal Communications Commission
445 12th Street SW
Washington, DC 20536

Dear Chairman Pai:

As an immediate past President of the Lake City Columbia County Chamber of Commerce and a marketing professional at Florida Gateway College in Columbia County, I write to offer my support of WCJB TV20s market modification petition to allow local broadcasts from this station to Columbia County.

WCJB is our local station and has been a part of our community for more than 40 years. The station's signal reaches Columbia County via cable and over the air antenna and has provided local news coverage to the residents of our community.

I ask that satellite viewers be given the same opportunity as cable subscribers to view our local station. Adding WCJB to the satellite companies will allow Columbia County residents to access Live Local community news, weather, sports and Emergency information.

I feel like WCJB is a part of our community and should be available to as many of our neighbors as possible. I ask that the Federal Communications Commission work with the parties to grant these petitions. Thank you for your consideration.

Sincerely,

Mike McKee
Executive Director of Media and
Public Information

April 16, 2019

The Honorable Ajit Pai
Chairman, Federal Communications Commission
445 12th Street SW
Washington, DC 20536

Dear Chairman Pai,

This letter is to express our support of WCJB TV20 and their request for market modification to allow local broadcast from this station to the entire Columbia County market.

As Executive Director of the Lake City-Columbia County Chamber of Commerce, I hear from residents and businesses regarding the lack of valuable information about our region due to their choice of utilizing satellite providers.

WCJB is our local station that services Columbia County via cable and antenna. I feel it is imperative that news and information be available to the entire market. Including WCJB to the satellite companies will allow Columbia County businesses and residents to access a vital source of local community news, weather and emergency information.

For the reasons discussed above, we the Lake City-Columbia County Chamber of Commerce ask that the Federal Communications Commission grant the petitions of WCJB.

Sincerely,

Theresa M. Pinto, IOM
Executive Director

April 15, 2019

The Honorable Ajit Pai
Chairman, Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Dear Chairman Pai,

Please allow this letter to serve as support of WCJB TV 20's market modification petition to allow local broadcasts from this station to Marion County.

The citizens of Marion County depend solely on WCJB for local news; otherwise, only news from larger surrounding areas (such as Orlando) would be accessible to satellite customers. It is important for satellite customers to have the same opportunities as cable subscribers to view our local station's broadcasting to ensure the citizens receive relevant local community news, weather, sports, and emergency information.

I appreciate your consideration to allow Dish and DirecTV subscribers continued access to WCJB TV 20 broadcasting.

Respectfully submitted,

Heidi Maier, Ed.D.

Dear Chairman Pai:

We are an advertiser on WCJB TV20 and write to offer our support of the market modification petition of Marion County to allow local broadcasts from this station to this county.

Our company is based in Marion County. The fact that we advertise on this station is proof positive that WCJB is our local station that reaches this area already via cable and over the air antenna. We ask that satellite viewers be given the same opportunity as cable subscribers to view our local station. Adding WCJB to the satellite companies will only add to the local economy in the county.

We're excited at the possibility of finally having a local station in Marion County. Our only current broadcast advertising options are stations out of Orlando which are cost prohibitive and the majority of their coverage is not in our local area. For these reasons, we ask that the Federal Communications Commission work with the parties to grant these petitions. Thank you for your consideration.

Sincerely,

We are an advertiser on WCJB TV20 and write to offer our support of the market modification petition of Columbia County to allow local broadcasts from this station to this county.

Our company is based in Alachua County with our trading area extending into Columbia County. The fact that we advertise on this station is proof positive that WCJB is our local station that reaches this area already via cable and over the air antenna. We ask that satellite viewers be given the same opportunity as cable subscribers to view our local station. Adding WCJB to the satellite companies will only add to the local economy in the county.

We're excited at the possibility of finally having a local station in Columbia County. Our only current broadcast advertising options are stations out of Jacksonville which are cost prohibitive and the majority of their coverage is not in our local area. For these reasons, we ask that the Federal Communications Commission work with the parties to grant these petitions. Thank you for your consideration.

Sincerely,

X

We are an advertiser on WCJB TV20 and write to offer our support of the market modification petition of Columbia County to allow local broadcasts from this station to this county.

Our company is based in Columbia County. The fact that we advertise on this station is proof positive that WCJB is our local station that reaches this area already via cable and over the air antenna. We ask that satellite viewers be given the same opportunity as cable subscribers to view our local station. Adding WCJB to the satellite companies will only add to the local economy in the county.

We're excited at the possibility of finally having a local station in Columbia County. Our only current broadcast advertising options are stations out Jacksonville which are cost prohibitive and the majority of their coverage is not in our local area. For these reasons, we ask that the Federal Communications Commission work with the parties to grant these petitions. Thank you for your consideration.

Sincerely,

Signature

Dear Chairman Pai:

As the Chief Operations Officer of the Morgan Auto Group, which operates fifteen automotive dealerships in North Central Florida, I write to offer my support of WCJB TV20's market modification petition to allow local broadcasts from this station to Marion, Alachua and Columbia Counties.

WCJB is our local station that reaches our advertising area via cable and over the air antenna. As a business advertiser, we would find it very beneficial if satellite viewers had the same opportunity as cable viewers in our markets. Adding WCJB to the satellite companies will allow North Central Florida residents to access live local community news, weather, sports and Emergency information.

For these reasons, I ask that the Federal Communications Commission work with the parties to grant these petitions.

Thank you for your consideration.

Sincerely,

As a resident of Columbia County FL, I would like WCJB as my local news source. In Northern Columbia County there isn't access to broad band Internet or cable television. Using DIRECTV for tv and having a local news source would be great vs viewing news and weather from agencies 1.5-2 hours east or west of my hometown.

Subject: **WCJV in Marion County**

To whom it may concern,

I am a Dish satellite subscriber and would like to have WCJV TV 20 as a local channel. Presently, as a Marion County resident, I receive the "local" channels out of Orlando. The news out of the Orlando area is irrelevant to my area and when an emergency such as Hurricane Irma occur, I have to rely on other sources as the Orlando stations fail to fully report for my area. It is as if we are the red headed step child for their market.

Please make it possible for WCJV TV 20 to be made available to Marion County so we can receive important information for our area.

Sincerely,
Denise R Wisham

Just wanted to respond to the post trying to get your station on direct TV in the live oak FL/Suwannee county area. It'd be great! Hopefully you can make it happen! We only get wctv out of Trashahassee and they're kinda one sided with their favorite sports and local news. GO GATORS! THANKS!!

Subject: Dish request

Being a long time Ocala resident, and now finding myself in a nursing home that just switched to dish network I want to beg and plead for WCJB to be our choice for news and weather. It is a super station and has the information that pertains to Marion County. What happens in Orlando is of no interest whatsoever. Thank you.

Esther Day I live in Keystone Heights & would like your station, it is Clay County.

Jerry Jacobs Your news station is the reason I dumped direct tv when my contract was up. They told me I would get local news, when I found out that Daytona and Orlando were what they considered local I was pretty upset but couldn't do anything about it.

The Honorable Ajit Pai
Chairman, Federal Communications Commission
445 12th Street SW
Washington, DC 20536

Dear Chairman Pai:

We write to offer our support of the WCJB market modification petition of Columbia County to allow local broadcasts from WCJB to Columbia County.

We live in Columbia County. WCJB is our local station that reaches this area already via cable and over the air antenna. We ask that satellite viewers be given the same opportunity as cable subscribers to view our local station. Adding WCJB to the satellite companies will only add to the local economy in the county.

We're excited at the possibility of finally having a local station in Columbia County. Our only current broadcast advertising options are stations out of Jacksonville which are cost prohibitive and the majority of their coverage is not in our local area. For these reasons, we ask that the Federal Communications Commission work with the parties to grant these petitions. Thank you for your consideration.

Sincerely,

Please allow TV20 to broadcast in Columbia & Marion Counties on Dish and DirectTV.

I watch TV20 on Comcast cable in Columbia County, however, I can't imagine not being able to watch their daily newscasts if I chose Dish or Direct TV. Too many people I talk to in this area are less informed of current or expected traffic issues on I 75 and severe weather warnings (or even heads up for planning) and they say they can't get TV20 when I reference this station as a source of local information.

To whom it may concern,

TV 20 at WCJB, our local ABC affiliate in Gainesville Florida is the most watched channel in our home. We have been loyal Dish network customers for almost 20 years. If TV 20 goes away we will no longer be Dish network customers. Please do not do away with this station in the Gainesville Florida area ! It is an important part of our lives. Thank you !

TV20,

As a cord cutter it doesnt affect me directly if Dsih and Directv are available here in Columbia county. I was a Directv customer for 20 years. I AM in favor of your broadcast being available to those remaining customers.

I want to take this opportunity to express that I would like tv20 to be available on my PlaystationVue local list or any other internet TV provider i might chose.

Thank you

Subject: Re: WCJB Marion and Columbia

To whom it may concern,

I was born and raised in Ocala, Marion County. I have enjoyed the broadcasting of local news from WCJB for many years. The "Home Team" has done a superb job adding to the feel of valuable local community news and reporting. Please keep their broadcasts accessible, they provide a necessary service to our local and regional residents, from stories on issues, crime, happenings at our local colleges and high schools, sports, including highlighted youth and schools. They help young and aspiring broadcast reporters professionally, and often profile local leaders, agencies, business owners, residents, and families. Their weather reporting is additionally valuable and in many ways critical for our region of the state. I hope you will allow them to continue their service to our community.

Thank you for your time.

Sincerely,

Robert Scott Hughes

Hi Alan, it was a pleasure meeting you as well and hearing about the opportunities for citizens in Columbia County to be able to access the local TV station.

Please see below for Chuck's response. It looks like he took care of the letter several days ago.

Chuck and I both serve on the Board of Trustees of Florida Gateway College. I am fortunate to be the chair this year. We have some exciting things going on at FGC. I hope we can garner some additional positive media attention for our college from WCJB. In addition to our outstanding academic activities, we have a passion for community outreach. Of note, we are currently raising donations for impacted faculty, staff and students at Gulf Coast State College. Representatives from FGC will deliver a truck load of donations on April 10 to Gulf Coast State College. I have attached a press release that I thought might be of interest to your news station.

If there is anything else I can do to help, do not hesitate to contact me.

Have a great weekend.

Subject: Local news needed

Since moving to Marion county in 2011, I was amazed at not having the local news reporting from the Gainseville stations. I was working in the automobile sales and wondered why business leaders could allow dealerships in another market to advertise in our area. I have requested Direct TV for the Gainesville market since I lived only 4 miles from the county line(McIntosh, Fl). They declined and could give no reason. Watching the weather I have to wait on the Orlando stations to give a report on the Ocala area. I am really glad that this movement has come. What else may I do to give my support. Please contact me back: Glenn McCorvy,

Thank You

Subject: WCJB on Satellite TV

Yes, yes, yes. A thousand times, yes!

For the life of me, I can't figure out why DirecTV thinks I'm interested in news out of Orlando. I complained to my local DirecTV provider and was told I needed to start a petition. I must admit, it never occurred to me to go to the station about it.

The FCC will be hearing from me and several of my friends.

Thanks for starting this!

Subject: Gainesville Florida TV Local Channels

I live in White Springs, FL which is about 60 miles or less from Gainesville. I have DirecTV and get the local channels from Tallahassee which is about 100 miles or more from White Springs. I would like to be able to receive the locals from Gainesville, because it is the actual closest television market to White Springs. I checked and made a map to make the point. Gainesville is 60 miles or less, Jacksonville is at least 70 or more miles and Tallahassee is the farthest at over 100 miles where I actually get the locals from on DirecTV. Can you please help me fix this.

On my map i have included my house, all the local station transmitter locations, and the closest local hospitals in Tallahassee, Jacksonville, Gainesville and Lake City. to help make the point as to why White Springs should be in the Gainesville Market area. For example If I call 911 for an ambulance they are going to take me to Shands in Lake City, FL .

White Springs is a satellite community to Lake City is a satellite community to Gainesville.

White Springs is in Hamilton County which borders on Columbia County which borders on Alachua County.

Hamilton is bordered by
North Georgia Echols County
North Georgia Lowndes County
East Florida Columbia County
South Florida Suwanee County
West Florida Madison County

there are:

3 counties east of Hamilton before you to get to Tallahassee on I10 Suwanee, Madison, Jefferson, and then Leon
4 counties west of Hamilton before you get to Jacksonville on I10 Suwanee, Columbia, Baker, Nassau, and then Duval
and only 2 counties south on I75 Suwanee, Columbia and then Alachua.

below is a link to my map.

<https://drive.google.com/open?id=1H1F73wngwRKArgcsOl-pGZe2R-0&usp=sharing>

please feel free to contact me either by cell or email and you can share my map with the FCC or whoever if it helps me get the Gainesville local channels on DirecTV.

thanks

Subject: Local Station On Satellite

To whom it may concern:

As a resident of Ocala, Florida (Marion County) and as a longstanding Dish network subscriber, it is very upsetting to know that in order to view my local news / station (WCJB-TV20) I would have to pay an additional fee. What upsets me besides the fee nonsense is that I can view the news / stations from Orlando, Tampa and so forth but I cannot view the news that directly effects my 352 area code. I hope that a change will be made in a very timely manner that will reverse this issue for the better and place WCJB-TV20 on to our satellite listings. Thanks

Subject: Satellite tv

We moved from Ocala to Silver Springs in 1990 and have never had cable tv. The cable companies will not lay cables in our area. Therefore, we have to use either satellite or antenna. Our choice was Directv which does not carry WCJB, so we had to buy an antenna if we wanted to be able to view our local station (not rabbit ears. We bought the tower and antenna and can view others stations not carried by satellite.) Each night at 5:00 we switch from satellite to antenna just so we can watch our area news. How easy it would be to just move to TV20 on the guide. However, the antenna does have an advantage. When weather interrupts the satellite, just switch to antenna. Please add our names to your petition.

Subject: I want WCJB!

My only disappointment with DirecTV is that they do NOT carry my favorite news station; WCJB-TV! I've even gone so far as to research other satellite providers, hoping they would carry this station, but all to no avail. I'm hoping that whoever the "chink in the armor" is, they will heed the call of we, the customers, and see that this becomes a done deal!

To whom it may concern!!!

We ALWAYS start our day WCJB! I also rely on WCJB tv20 to give me current events that are happening in our home town. Without WCJB tv20 this last week, We are so disconnected with everything that is happening.

WE WANT OUR WCJB TV20!!! As we are approaching stormy season, I am very fearful of not have the warnings that could save our lives because we can't watch WCJB tv20!!!!

People at the FCC, For our safety we need WCJB tv20!! Bring it back O:-)

Subject: Local news and weatherBB

I am so excited to hear about the possibility of having local news and weather from WCJ B TV 20 in Gainesville. I live in Columbia county about 1/2 mile from the zip code that is the deciding factor in which local news channels I receive on Dish Network. I live 15 miles from Gainesville and 75 miles from Jacksonville, the tv station that I currently get on Dish network. The Jacksonville news channels are focused on Jacksonville and their local area not on those of us who live so far away. WCJB provides excellent news and weather for the local areas around Gainesville. It would greatly benefit those of us this close to Gainesville to have access to local coverage about what's going on around us rather than 75 miles away. Jacksonville provides some information on our area but not as in depth as WCJB Tv 20. During the previous hurricanes, I would have felt much safer if I had weather coverage from Gainesville.

Thank you for this opportunity to have access to my local area.

To: Matt Hunter
Subject: Satellite Petition

To Whom It May Concern,

I could never figure out why, being that I live in Ocala and subscribe to DISH, my local news channels were all from the Orlando area. I could see if I was the half way mark but there's quite a difference in the distance between me and Orlando as opposed to me and Gainesville. Very seldom do I see news about Ocala on the Orlando stations unless it's something out of the ordinary. As for ads for the city or Marion County in general, they just don't exist. The community I live in provides basic cable in our amenities, so in order to watch the news, the weather and the ads that pertain to my area, off goes the satellite and on comes the cable. Also there are so many good programs on TV20 worth watching but I can't unless I do the ol' switcheroo. If my community ever decides not to provide the cable, I'll be SOL as to what's going on around here.

WCJB belongs in the satellite line up so put me down as a "FOR" for the idea. It's way over due.

Sincerely,

Dana Kaczmarek
Ocala, FL.

Subject: no local news on DirecTV

I live in Columbia Cty. and the only news I get is from Jacksonville and they do not give the local news or weahter for Lake City. I tried to use an antenna however I found that it does not pickup the Gainesville stations.
I would love to be able to get the news, weather and road reports from you.

Subject: Local news and weatherBB

I sent the email below previously and wonder if you received it.

I am so excited to hear about the possibility of having local news and weather from WCJ B TV 20 in Gainesville. I live in Columbia county about 1/2 mile from the zip code that is the deciding factor in which local news channels I receive on Dish Network. I live 15 miles from Gainesville and 75 miles from Jacksonville, the tv station that I currently get on Dish network. The Jacksonville news channels are focused on Jacksonville and their local area not on those of us who live so far away. WCJB provides excellent news and weather for the local areas around Gainesville. It would greatly benefit those of us this close to Gainesville to have access to local coverage about what's going on around us rather than 75 miles away. Jacksonville provides some information on our area but not as in depth as WCJB Tv 20. During the previous hurricanes, I would have felt much safer if I had weather coverage from Gainesville.

Thank you for this opportunity to have access to my local area.

Subject: WCJB in Marion County

I am writing in support of WCJB being broadcast via satellite in Marion County, FL. WCJB broadcasts from Gainesville, FL, which is 17 miles from my house. However, I cannot get WCJB via Directv because I live in a county where I have no choice but got get my local station from Orlando, which is 104 miles away. This makes no sense. Advertising from Orlando doesn't appeal to me, because I never, ever, shop in Orlando. I am, however, frequently in Gainesville. News, sport, weather, and advertising from my local town is much more relevant. Ironically, I live one mile from the Marion County/Levy County line. If I lived in Levy County, I could get WCJB via Directv.

Subject: Satellite TV Connection for Marion County

Currently, my household can only receive TV 20 news "online," even though Gainesville is the closest broadcasting city to my community (Williston). Due to current regulations, my "local" news channel is out of Orlando, which is 100 miles away. I have no great interest in Orlando local news and weather, so I do not watch it. Furthermore, the weather pattern here is quite different from Orlando, especially during hurricane season. It would be of great benefit to receive useful local area weather updates and warnings rather than those for a location far from me. Additionally, I-75 road conditions greatly affect my local area which is used, when necessary, for detoured traffic, however, I receive useless detour and accident updates for Orlando, so again, I do not watch. These are only a couple of many things that I miss from not being able to have WCJB broadcasts in my home.

I feel it is important to keep citizens informed about the happenings in their local area, especially when technology makes it possible, so I would greatly appreciate a change in broadcast regulations, so that WCJB would be available "via TV" in my Marion County, Florida home.

Subject: WCJB Carry Petition for Dish Network

We would like to join a petition to have Dish Network carry WCJB as our ABC affiliate station for Ocala/Marion County.

The Orlando affiliate's news coverage area is too large to provide any meaningful local news coverage for Ocala. Likewise, the weather forecasting for the Orlando area is significantly different than the Gainesville & Ocala geographic areas. This is most important during hurricane season. Alerts and local emergency operation centers public information needs to be from the most local source possible. Ocala that is WCJB.

We attempted to call the FCC number directly, but they were less than helpful in this endeavor.

Please let us know what direct actions are available to support this petition (please don't ask us to go back to Cox Communications for TV).

Sincerely,

Randy & Donna Hahn
