64.604(a)(v) Mandatory Minimum Standards

CAs answering and placing a TTY-based TRS or VRS call shall stay with the call for a minimum of ten minutes. CAs answering and placing an STS call shall stay with the call for a minimum of twenty minutes. The minimum time period shall begin to run when the CA reaches the called party.

Consistent with the new requirement of 64.604(a)(1)(v), Sprint CAs answering or placing a STS call stays with the call for a minimum of twenty minutes.

64.606(d) Method of Funding

Except as provided in §64.604, the Commission shall not refuse to certify a state program based solely on the method such state will implement for funding intrastate TRS, but funding mechanisms, if labeled, shall be labeled in a manner that promote national understanding of TRS and do not offend the public.

Communications promoting understanding of Relay Colorado, such as surcharge on local telephone bill, are labeled in a manner that is respectful and does not offend the public. As such, Relay Colorado, is in compliance with this requirement.

64.5105 - 64.5110 TRS Customer Proprietary Network Information

Because 64.606(b)(1)(i) requires that state TRS programs establish that they meet or exceed all operational, technical, and functional minimum standards contained in 64.604, and 64.604(d) incorporates by reference the CPNI rules, the states are required to establish that their programs comply with the CPNI rules.
