Re: *Notice of Ex Parte Presentation*
GN Docket No. 12-354, *Amendment of the Commission's Rules with Regard to Commercial Operations in the 3550-3650 MHz Band*

Dear Ms. Dortch:

On May 9, 2017, Chris Stark, Prakash Moorut, and Jeffrey Marks of Nokia met in successive meetings with the following Commission officials: (1) Rachael Bender, Acting Wireless Advisor to Chairman Ajit Pai; (2) Daudeline Meme, Legal Advisor to Commissioner Mignon Clyburn; (3) Commissioner Michael O'Rielly and his Legal Advisor, Erin McGrath; and (4) representatives from the Wireless Telecommunications Bureau, International Bureau, and Office of Engineering and Technology listed below.

In each of the four meetings, the attached presentation served as the basis of Nokia's advocacy. In particular, the Nokia representatives briefed the Commission on Nokia's substantial efforts to make innovative wireless services a reality in the 3.5 GHz band, and the potential timeline for deployment. Nokia further stressed the importance of mobile carriers obtaining the certainty required for large-scale investment, which will drive the device ecosystem in the 3.5 GHz band.

Please contact the undersigned with any questions in connection with this submission.

Respectfully submitted,

/s/ Jeffrey A. Marks
