RE: CC Docket 96-61 - 2018 Section 254(g) Rate Averaging and Rate Integration Certification

Title 47 of the Code of Federal regulations, Section 64.1900 requires that a non-dominant provider of interexchange telecommunications services, which provides detariffed interstate, domestic, interexchange services, to file with the Commission yearly, a certification that it is providing such services in compliance with its geographic rate averaging and rate integration obligations pursuant to section 254(g) of the Communications Act of 1934 as amended.

Northern Telephone Cooperative, Inc. certifies that it is in full compliance with the section 254(g) requirements identified above. The company charges its customers the same rates under the same terms regardless of the customer's geographic location for equivalent long-distance service. We have enclosed the original and two copies for filing with the Commission.

I declare under penalty of perjury that the foregoing is true and correct.

Signed this 30th day of April, 2018.

Michael Sheard, General Manager
