

In July 2017 the Aberdeen School District was approved for \$10,603.18 in E-rate discounts under application #161048918 and funding request numbers 1699117688, 1699117752 and 1699117807 for the funding year 2016 which runs from 7/1/16 through 6/30/17. We issued this credit to the school on their August 10th billing from NVC. I have submitted the forms to USAC in order to receive reimbursement for the credits given. This request has been rejected by USAC because the school district filed their FRN's with a service start date of 7/1/16 and a service end date of 7/1/16. I would assume this was a typographical error on the application and that they meant to put 6/30/17.
