**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I use a local provider here in San Francisco as they provide a service at a price and with a level not offered by the other large corporations. I need broadband to be able to work from home and we use it from playing music for our child to the security system in our house. I have Fiber today in my house, which wasn't available until a local ISP installed Fiber in my neighborhood and did it at a price that is far cheaper than any other option available to me.

Thank you!
