**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Its imperative that all consumers have several options available in any market, all of which must provide a minimum of 100 Mbps both down and up stream. Other countries have been providing symmetric gigabit fiber at \$30/mo for many years. Its abhorrent that in the greatest country on earth we cant do the same. This is largely the fault of the FCC.
