**Re: In the Matter of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

The historic mission of the FCC has been to provide open and equal access to the "airwaves" for the citizens of this great nation. As a U.S. government agency, you should seek to serve it's citizens not it's corporations.

Please rework your broadband maps to reflect reality not possibilities. Reform the questionnaire not to ask "each provider where it could provide service, versus where it does provide service". I live in a fairly large city, yet there is only one provider that can delivery more than 50Mb to my home. Competition still has a way to go.

Please remember your "root" mission.

Charles Bowden
