Eastmont School District 206 is seeking a Petition for Waiver 02-6.

We have had a few conversations with Mark Nadell a FCC representative for additional information on our request.

When we attempted to file our 471 we completed all of the steps, specified it was a continuation of a previous year and successfully copied our FRN from the prior year. Everything looked perfect and after we selected Continue to Certification we received an error and the system prevented us from submitting. **The error message is included on Page 2.**

I did recreate the form 471 a few times before giving up and filing for the initial Petition for Waiver. I'm very hopeful that USAC has date/time stamps of each failed submission.

Please let us know what other documentation you need to evaluate our request.

We appreciate your consideration.
