Re: *Advanced Methods to Target and Eliminate Unlawful Robocalls*, CG Docket No. 17-59;
Call Authentication Trust Anchor, WC Docket No. 17-97

Dear Ms. Dortch:

Sonic is pleased to see that the Commission continues its efforts to address the unwanted calls that consumers receive.¹ Sonic has always done its part to provide the best possible experience for its POTS and interconnected VoIP customers. Sonic offers call blocking solutions to its voice customers, at no additional charge. Rather, Sonic includes call blocking options as a way to improve the experience for its voice customers and distinguish itself in the marketplace.

As the technology for identifying and blocking unwanted calls evolves, Sonic will continue to pursue the best options for its customers and appreciates the Commission's engagement on this issue.

Please be in touch with me if you have any questions.

Sincerely,

Julie A. Veach
Counsel to Sonic Telecom, LLC
