EXHIBIT #3

PROGRAMMING STATEMENT OF SOUTHWEST FLORIDA  
COMMUNITY RADIO, INC.

SOUTHWEST FLORIDA COMMUNITY RADIO, INC. IS A NON-PROFIT, TAX-EXEMPT CORPORATION WHOSE PRIMARY OBJECTIVES ARE AS FOLLOWS:

- I. To provide educational, informational, cultural, and family oriented programming to Conway, Florida. This area is rich in the field of arts, and music.  
The proposed station would feature programs that would assist in passing this heritage to the young generation.
- II. To offer a considerable amount of positive programming for area youth through:
  - A. Local high school outstanding student salutes.
  - B. Interviewing students who possess scholastic and artistic enthusiasm.
  - C. Educational programs on youth oriented topics, such as drug awareness, family and social interaction, and interpersonal relationships, and religions.
  - D. Cooperation with Orange County Schools in the promotions of drama presentations, sports activities, musical concerts, and special lectures.
- III. Training students for future broadcasting careers through the offering of internships for both high school, and college credit. This would be coordinated through Orange County public and private schools, and also through nearby colleges that offer journalism, public speaking, and broadcasting courses. Such colleges would include, but not limited to University of Central Florida, Rollins College, and Valentia Community College.
- IV. Restoring respect for family and authority. As a broadcast applicant we have already ascertained that there is a great need in the Conway, greater Orlando area for programming that will address the complex needs of the family. The family breakdown has resulted in a general low self esteem among our youth, under achievement in the classroom, and a drug and alcohol abuse epidemic. Programs will be developed to explore solutions to these problems which permeate nearly every facet of our culture.

It is believed that these objectives are not currently being met in the Conway, greater Orange County area. We have ascertained that the community desires a broadcast outlet to address these needs. The applicant will fully comply with the letter, and spirit of F.C.C. rules and regulations.

EXHIBIT #4

PROGRAM DESCRIPTIONS

The following is a sample of proposed programming for new Conway, Florida non-commercial educational station. This list is not all inclusive, but does represent the types of special programs that will accomplish the educational and stated purpose of Southwest Florida Community Radio, Inc. Additional programs will be added as the needs from Conway area residents are expressed through ongoing ascertainment.

CAREER CONCEPTS:

The applicant has ascertained that youths residing in Central Florida are generally more apathetic than youth in other regions. This apathy filters into the educational process where students about to enter college have little or no knowledge about the possible career choices available to them. The station proposed broadcast facility will feature regular programming that will focus on this problem. Programs would include:

- 1) **Inter Cristo Career Concepts**- a two minute program exploring new avenues of careers and the types of courses students should take to qualify for said careers.
- 2) **Various interview programs**- with students, will be locally produced where guests would be recent college graduates sharing insight and answering questions from students who are unsure of career goals and lack general direction as to what type of higher education they should pursue.

**GULFSHORE COLLEGE SPOTLIGHT**- Gulfshore Christian College would produce this program (30 minutes weekly) instructing youth and adult listeners on the available areas of credit study available at their Southwest Florida area campus. Professors of Archeology, Science, Bible and Radio Broadcasting would host these informative programs and students who are enrolled in the radio broadcasting course would be actively involved in the writing and producing of the broadcast for credit in their studies.

**HIGH SCHOOL INTERN HOUR** - One hour daily radio show coordinated by a rotating group of students studying fields of journalism and radio broadcasting at various Orange County public and private high schools. The program will serve to add credit and hands-on experience to students who might otherwise not have the opportunity afforded to them.

ORANGE COUNTY FOCUS ON THE ARTS - This proposed program (length to be determined) would be produced and written by the drama departments of Conway area colleges and high schools. The purpose would be to inform area residents on upcoming art exhibits, drama presentations and musical concerts coming to the Conway/Orlando vicinity. The production of this program may also help to add practical experience to students aspiring radio or the fine arts.

STUDENT METEOROLOGICAL REPORT - Periodically, as serious and unusual weather conditions exist, the station will afford the opportunity for students who are majoring in meteorological studies to produce programs that will educate the listening audience on weather conditions such as hurricanes, tornados and the damages of lightning. Central Florida is known for high incidents of lightening related injuries and deaths.

YOUTH TALK - The applicant has ascertained that the Orange County area has one of the highest percentages of teen drug users and abusers. Further research indicates that reasons for this abuse point to the breakdown of the family structure, lack of religious involvement and respect for authority. The applicant will provide a variety of extensive programs hosted by experienced youth pastors, social workers and teachers that will offer hope and practical advice. One such program will be YOUTH TALK every Sunday evening from 8 to 10PM. The program will be hosted by Anne Wanicka, an English teacher who also possesses experience in dealing with confused, troubled teenagers.

PERSPECTIVE - This weekly 30 minute program will feature interviews with Conway area leaders in education, government, and civic organizations. The topic of discussion will focus on the needs of the growing Central Florida area and how to handle problems associated with this growth.

EXIBIT #4  
Page Three

- PARENT TALK -** Ascertainments reveal that the breakdown of the family is an ongoing serious problem in the Conway area. Parent Talk will feature experts in the field of parenting and communication with children designed to improve relationships within the home.
- PASSPORT TO SUCCESS -** This five minute program will be featured daily and will provide a forum for discussion into the world of business and career. The program will be designed to equip young people with the necessary positive mental attitude and practical helps in discovering job opportunities and advancing in their career.
- FRIDAY FORUM-** This live, call-in program will be featured one hour per week and will focus on educating the public on such personal issues as: alcoholism, drug abuse, emotional distress and marital conflict. The show will be hosted by a Central Florida area professional counselor.
- RAY OF HOPE -** A spanish program, 90 minutes in length, providing educational, cultural and religious programming to the growing Hispanic community in Orange County. This program will be hosted by the Nations Association, a social service agency working primarily with Hispanics in job service, food distribution and medical care.
