VIA ELECTRONIC FILING

Honorable Ajit Pai, Chairman  
Honorable Michael O’Rielly, Commissioner  
Honorable Brendan Carr, Commissioner  
Honorable Jessica Rosenworcel, Commissioner  
Honorable Geoffrey Starks, Commissioner  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

*Reference: WT Docket No. 17-200, In the Matter of Review of the Commission’s  
Rules Governing the 896-901/935-940 MHz Band*

Dear Chairman Pai and Commissioners O’Rielly, Carr, Rosenworcel and Starks:

Sonim applauds the Commission’s recent Notice of Proposed Rulemaking (NPRM) to re-align the 900 MHz band for broadband services in the above referenced proceeding.

Sonim Technologies, Inc. is a leading U.S. provider of ultra-rugged mobile phones and accessories designed specifically for task workers physically engaged in their work environments, including the domestic utility industry. These same utility customers are seeking equipment that can be deployed quickly and with limited cost. The 900 MHz band represents a viable option for utility customers to realize the benefit of a standard, private wireless platform for their communication needs.

We hereby encourage the Commission to expeditiously adopt this proceeding to transform the 896-901/935-940 MHz Band so that the benefits of private broadband service are available to the critical infrastructure community.

Sincerely,

/s/

Robert Escalle  
Vice President – Public Safety Market Segment
