Summary

I filed a BEAR for Central Islip Union Free School District on 1/4/2019 – Invoice 2898058. It was denied on 1/11/2019 for – Service Provider Not Certified.

Prior USAC procedures required USAC to send a communication to the filer of the BEAR for either:

- 1 - Additional information to complete the reimbursement request.
- 2 – A BEAR Notification Letter identifying any issues so the appropriate action could be taken.

In this Case

I did not receive any request for additional information from USAC.

I did not receive any communication from USAC that they were planning to deny the BEAR.

I did not receive a BEAR Notification Letter. I had to request one from Customer Service – case 276191.

I was not given notification that the BEAR was to be denied or the opportunity to rectify the denial reason. Thus, the Last Date to Invoice passed with no action taken.

Requested Action

Since the Last Date to Invoice (LDI) has passed and USAC did not follow standard procedures I request:

- 1 - A Waiver of the FCC rule allowing only 1 extension to the LDI.
- 2 – The FCC create a new Last Date to Invoice allowing the school enough time to file a new BEAR with the proper certifications.
