**FILING INSTRUCTIONS**

Broadcast station licensees are required to afford equal opportunity to all qualified persons and to refrain from discriminating in employment and related benefits on the basis of race, color, national origin, and sex. See Section 73.2080 of the Commission's Rules. Pursuant to these requirements, a license renewal applicant who employs five or more full-time station employees must file a report of its activities to ensure equal employment opportunity for women and minority groups (that is, Blacks not of Hispanic origin, Asians or Pacific Islanders, American Indians or Alaskan Natives, and Hispanics). If minority group representation in the available labor force is less than five percent (in the aggregate), equal employment opportunity (EEO) program information for minority group members need not be filed. However, EEO program information must be filed for women since they comprise a significant percentage of virtually all area labor forces. If an applicant employs fewer than five full-time employees, no equal employment opportunity activity information need be filed.

A copy of this report must be kept in the station's public file. These actions are required to obtain license renewal. Failure to meet these requirements may result in license renewal being delayed or denied. These requirements are contained in Section 73.2080 of the FCC Rules (47 CFR 73.2080), and are authorized by the Communications Act of 1934, as amended.

If your station employs fewer than five full-time employees, check the box at left, complete the certification below, return the form to the FCC, and place a copy in your station's public file. You do not have to complete the rest of the form.

If your station employs five or more full-time employees, you must complete all of this form and follow all instructions.

If minority group representation in the available labor force is less than 5 percent (in the aggregate) and you choose not to file EEO program information for minority groups, check the box at left and complete the rest of this form with only the information for your program directed towards women.

Question 7

**R.F. RADIATION COMPLIANCE EXHIBIT**

Calculations of radio frequency radiation are in accordance with formulas set forth in OST Bulletin No. 65, October 1985, "Evaluating Compliance with FCC Specified Guidelines for Human Exposure to Radio Frequency Radiation".

WBMR (FM) operates with a licensed power is 116 watts ERP into one (1) bay circularly polarized antenna mounted on a 60 foot tower.

Using standard tables of minimum height for FM antennas for compliance with exposure guidelines anywhere on the ground, WBMR operation is well under the ANSI limit = 1 mW/cm<sup>2</sup>.

The above figures are well below that level which as been labelled by the OST Standards as hazardous. Consequently, WBMR is in compliance with the Commission's rules and regulations regarding exposure of workers or the general public to levels of radio frequency radiation in excess of the American National Standard Safety levels with respect to human exposure to radio frequency electromagnetic field, 300 KHZ to 100 GHZ (ANSI 95.1-1982).
