FEDERAL COMMUNICATIONS COMMISSION  
Washington, D.C. 20554**

In the Matter of	)	
	)	
Office of Engineering and	)	
Technology Seeks Comment On	)	ET Docket No. 19-48
Modifying the Equipment Authorization	)	
Rules to Reflect the Updated Versions	)	
Of the Currently Referenced	)	
ANSI C63.4 and ISO/IEC 17025	)	

**Motion To Accept Late-Filed Comments  
of Cisco Systems, Inc. and Intel Corporation**

Cisco Systems, Inc. and Intel Corporation (“Joint Filers”) seek to file a joint comment, per the attached, in the above-captioned docket. Through an administrative oversight on Cisco’s part, the comment was not filed on Friday June 7, 2019, which was the due date for the comment. Cisco will provide a copy of the Joint Filers comments to those parties who filed comments on June 7 via email or physical service. Because the comment is being presented one business day after the due date, and because we will provide a copy of the filing to all other parties, we do not believe that we will prejudice any party’s ability to respond by the due date for Reply Comments on June 24, 2019. However, should the Commission deny this motion, the Joint Filers request that this comment be treated as a Reply Comment and considered in the docket.

The Joint Filers thank the Commission for its consideration of this Motion, and ask that in the event it not be granted, the comments be treated as Reply Comments in this proceeding.

Respectfully submitted,

INTEL CORPORATION
