**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

As a consumer or internet services I want the option of using a local ISP as opposed to not being able to avoid having to use some provider like AT&T or Comcast. I use a local competitive provider that is building local, affordable, fiber network services. Despite what some say, Internet services are, in reality, a utility that should not be deregulated. Doing so will allow corporations like AT&T and Comcast to raise prices and make services less affordable for masses of people. No to price hikes!
