

## **PETITION OF SUPPORT FOR SSR'S PETITION FOR RULEMAKING**

---

**Dear Commissioners of the Federal Communications Commission and Media Bureau Staff:**

**I support the petition for rulemaking filed by SSR Communications, Inc., on Friday, January 18, 2013 (received Tuesday, January 22, 2013), requesting certain engineering changes pertaining to commercial FM broadcast standards, including the creation of a new FM 'Class C4' allocation and amendments of Sections 73.207, 73.210, 73.211, 73.215, and 73.3573 of the Commission's Rules.**

**I believe that, as hundreds of Zone II commercial FM stations would be able to apply for upgraded facilities without impacting the service areas of existing stations, SSR's proposal is clearly in the interest of the public.**

**In the event that the Commission announces a comment window and formal Notice of Proposed Rulemaking ('NPRM') for SSR's petition for rulemaking, then I intend to file comments in favor.**

**Sincerely,**

Name: Matthew Wesolowski

Organization: WYAB 103.9 FM

Title: CEO / General Manager

Additional Comments: This proposal could affect hundreds (if not thousands) of Class A radio stations in a positive way. Please act right away.
