

Regarding MB 18-184

Dear FCC Commissioners,

My name is Ed Taylor, and I am the licensee of KXCL 101.7 FM in Rock Creek Park, Colorado.

I fully support the FM Class C4 / 73.215 petition for rulemaking filed by MMTC and SSR Communications, MB 18-184.

We are a non-commercial full power FM radio station providing updated relevant community information for our area including emergency weather coverage, help with finding free services, blood donation needs, and many more. We seek to educate our community on being a better person and investing in other's lives. A power increase to 12,000 watts would greatly help us reach more people.

I ask that you implement the complete MB 18-184 proposal without delay.

Sincerely,

Ed Taylor
KXCL 101.7 FM, Rock Creek Park, Colorado
