**RE: WC Docket No. WC 18-29; RENEWAL of SECTION 63.63 APPLICATION of  
AT&T**

Dear Ms. Dortch:

AT&T Services, Inc. on behalf of its affiliates AT&T Corp., Pacific Bell Telephone Company d/b/a AT&T California, SBC Long Distance, LLC d/b/a AT&T Long Distance and Teleport Communications America, LLC, collectively referenced herein as "AT&T" filed a Section 63.63 application in the above-referenced docket on February 2, 2018 seeking emergency authorization under Section 214(a) of the Communications Act, as amended ("the Act"), 47 U.S.C. § 214, to suspend AT&T's wireline interstate telecommunications services as a result of three fires that spread across five counties in Southern California and major mud slides followed in the burn areas. AT&T's facilities sustained significant damage throughout the area.

AT&T hereby informs the FCC that AT&T has restored service to all customers that reported service issues due to the fire and mud slides. Services have been restored either through temporary or permanent facilities throughout the impacted areas. In addition, AT&T's service levels have normalized and are being sustained. As a result, AT&T no longer requires authorization pursuant to Section 63.63 to suspend its services in these areas.

Best regards,

A handwritten signature in black ink, appearing to read "Terri Hoskins", written over a horizontal line.
