As a businessman it is extremely important to me that the FCC's Open Internet Rules (net neutrality rules) remain in place.

The Title II classification of internet services is a practical necessity, indeed it is the only sane approach to regulating what is a service exactly like water and power in this modern age.

Chairman Pai's plan is nothing more than a thinly-veiled lobbying effort, and must be resisted. I urge you to leave the Title II classification in place.

Thank you  
Don Hindenach
